Notes to Schedule of Expenditures of Federal Awards and State Financial Assistance Projects

Schedule of Findings and Questioned Costs

Summary Schedule of Prior Audit Findings

### V. MANAGEMENT LETTER

## Section I City of Sunrise, Florida Introductory Section

### FINANCE DEPARTMENT

Phone: (954) 746-3217 Fax: (954) 572-2469

February 22, 2008

To the Honorable Mayor and members of the City Commission:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Sunrise, Florida (the City) for the fiscal year ended September 30, 2007.

This report consists of management's representations concerning the finances of the City. Responsibility for both the reliability of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed to protect the City's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Rachlin LLP, a firm of licensed certified public accountants, has audited the City's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2007, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit and the reports of other auditors, that there was a reasonable basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended September 30, 2007, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader federal and state mandated "Single Audit" designed to meet the special needs of the federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls over financial reporting and compliance and other matters.

GAAP require that management provide a narrative introduction overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

### **City Profile**

The City of Sunrise, incorporated in 1961, is located in southeastern Florida in Broward County. The City encompasses an area of approximately 18 square miles with an approximate population of 90,000 (23rd largest of Florida's 400+ municipalities). The City is convenient to three international airports and two deep-water ports, and hosts more than 25 million visitors each year.

The City has operated under a city commission/city manager form of government since 1989. The city commission is comprised of the mayor, deputy mayor, assistant deputy mayor, and two commissioners, who enact laws, determine policies and adopt the annual budget. The city manager is appointed by the city commission and is responsible for carrying out the policies of the city commission and for overseeing the daily management of the City. The city manager appoints the heads of the various departments.

The City provides a full range of services including police and fire protection, emergency ambulatory service, water, wastewater and gas services, sanitation services, recycling services, stormwater services, recreational and cultural activities/events, construction and maintenance of streets and other infrastructure and general administrative services. Internal services of the City, accounted for on a cost reimbursement basis, include a workers' compensation fund. The City is financially accountable for two legally separate special recreation districts and a special tax district, all of which are included as an integral part of the City's financial statements. Additional information on all three of these legally separate entities can be found in the notes to the financial statement (See Note I.A).

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for appropriation to the city manager. The city manager uses these requests as the starting point for developing a proposed budget. The city manager then presents this proposed budget to the city commission prior to August 1 of each year. The city commission is required to hold public hearings on the proposed budget and to adopt a final budget by September of each year. The appropriated budget is prepared by fund, function (e.g., Public Safety), and

department (e.g., Police). The city manager is authorized to transfer appropriations within a department, office or agency; however, any other revisions require approval of the city commission.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. In addition, the governmental fund subsection includes project-length budget-to-actual comparisons for each governmental fund for which a project-length budget has been adopted.

### **Economic Outlook and Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

### **Local Economy**

Sunrise, situated in the heart of the tri-county region (Miami-Dade, Broward and Palm Beach), is well diversified and continues to be a prime location for corporate headquarters and major office operations. The City continues to be a leader in Broward County for the attraction of new corporate investment, job growth and business expansion. The city commission and staff have been able to reduce Sunrise's property tax millage for the 13th consecutive year. On June 21, 2007, House Bill 1B was signed into law during Special Legislative Session. This bill limited maximum millage levies for fiscal year 2008. The City again reduced taxes below what was required. At the same time the City has been lowering its tax rate, it has continued to expand its tax base and appeal with innovative economic development and neighborhood improvement initiatives.

The City offers developers and business owners a lucrative gateway to the customers they want most. As South Florida's population base continues to shift north and west, the Sawgrass region – the population center of the tri-county area – is uniquely situated to offer a large pool of prospective employees and customers for many national corporations, regional corporate offices and major headquarters.

The following facts reflect Sunrise's economic condition and outlook:

Sunrise is home to a diversified group of businesses, including corporate offices, financial services and research and development (R & D) companies. A strong endorsement of the City's business appeal is that corporations, hotels, restaurants, office parks and attractions already located in our community continue to expand and invest in the area. The City is a job growth leader, consistently ranking at the top of Broward County municipalities in the creation of new employment opportunities. A significant level of corporate business and development activity occurred during the year. Western Union announced they will be relocating their

South American headquarters to Sunrise. Additionally, WorldAvenue will be relocating their corporate headquarters, bringing 200 new technology-based jobs to the City. E & J Gallo Winery moved their South American headquarters to the City during the last quarter of 2007. Other notable business arrivals to the city this year include Florida's first IKEA store, Cannon Business Systems, and Cigna Dental. In addition, construction of Republic Services 65,000 square foot headquarters in Sawgrass International Corporate Park is nearing completion.

- Sunrise's four major industrial parks consist of Sawgrass International Corporate Park with 612 acres, Sunrise Commerce Center with 550 acres, Broward Lakes Business Center with 120 acres and Sawgrass Technology Park with 100 acres. The Sawgrass International Corporate Park is the most significant of these, ranking as the largest corporate office park in South Florida and the 6<sup>th</sup> largest office park in the State of Florida, per the South Florida Business Journal, 2005 Book of Lists. The latest addition to the Sawgrass International Corporate Park is Lakeshore Office Plaza I, a five-story, 145,000 square foot class A office building completed in 2006. The building has nearly reached 100% occupancy. A second twin building, Lakeshore Office Plaza II, is nearing completion. It will be available for tenants in mid 2008. The Stiles Corporation announced plans for a major mixed-use development, called Westerra. The proposed Westerra project will feature 1.6 million square feet of class A office space, 1,500 luxury high-rise residential units, 400,000 square feet of upscale retail, and a boutique hotel.
- Sawgrass Mills Mall, a 2.7 million square foot shopping mall and entertainment complex located in the City, is second only to Walt Disney World as a tourist attraction in Florida. Besides Sawgrass Mills Mall, another major amenity drawing visitors to the City is the 20,000 seat Bank Atlantic Center, in which the Sinatra Theater is housed. The Bank Atlantic Center is one of the finest arenas in the country and home to the NHL's Florida Panthers. Both of these regional destinations remained significant contributors to the City's economy, with over 25 million visitors a year.

During the past ten years, the City's expenses related to public safety have increased not only in amount, but also as a percentage of total expenses (a ten-year increase of 13.9 percent). Much of the increase reflects a trend that has seen the salaries and benefits of police and firefighters growing at a faster rate than those of other categories of public-sector employees.

### **Long-term Financial Planning**

Unreserved, undesignated fund balance in the general fund (50.1 percent of the general fund original adopted budget) falls within the policy guidelines set by the city commission for budgetary and planning purposes (i.e., one-twelfth of the general fund original adopted budget).

### **Major Initiatives**

The City has seen moderate and steady growth over the past ten years. Growth in the commercial sector is expected to continue.

Joining the \$40,000,000 state of the art entertainment facility called "Wannado City" is the Colonnades at Sawgrass Mills Mall. The Colonnades, which opened in 2006, is an approximately 190,000 square foot development which features high-end designer shops, specialty retail shops and several restaurants.

Another important project proposed for future development will be the 11-story Sunrise Residence Inn/Courtyard Hotel. This will be Marriott's first two-flag hotel in Florida and only the second such property in the United States. The hotel will be built in the Sawgrass area of the City.

Additional Sawgrass area development plans include three major projects called "Tao", "Metropica" and "Artesia".

The Tao Condominium project broke ground in 2006 and is nearing completion. At 26 stories, Tao will be the tallest residential building west of the downtown area. The twin 26-story residential towers will feature 396 luxury units.

Metropica would be a first-class, mixed-use project consisting of approximately 500,000 square feet of class A office buildings with structured parking, several full service restaurants, upscale specialty retail boutiques and nearly 400 luxury high-rise residences.

Artesia, which is currently under construction, is envisioned as an upscale, gated community comprised of approximately 1,400 residences. Conceived as a community of low-, mid- and high-rise buildings, the tallest of which would be nine stories, Artesia will capture the color and character of such resort areas as Palm Beach (Florida), Marbella (Spain) and Portofino (Italy). Artesia's multi-family residences are expected to set a new benchmark for luxury, resort-style living in South Florida.

The BankAtlantic Center, located in the heart of the City's booming Sawgrass area, received permission from Broward County to begin exploring the possibility of developing a massive entertainment based, mixed-use project adjacent to the arena. The project could include retail, restaurants, hotel, office, residential units, meeting facilities and additional entertainment venues. The firm of Beyer Blinder Belle, has been hired for the initial planning stage.

The City is committed to enhancing the quality of life for its residents. In an effort to expand leisure time activities, the City will once again host a pro tennis tournament in 2008. The "BMW Tennis Championship" will be held at the Sunrise Tennis Center and will feature some of the world's top ranked tennis players. This tournament will be one of only three major ATP tournaments held in the state of Florida.

As we move into the 21<sup>st</sup> century, the City of Sunrise is well positioned for a prosperous future. Beautiful neighborhoods, state-of-the-art corporate parks, unparalleled shopping and entertainment destinations and access make the Sawgrass area a sought-after home for businesses and residents alike.

### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Sunrise, Florida for its comprehensive annual financial report for the fiscal year ended September 30, 2006. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report was made possible by the efficient and dedicated service of the Finance Department staff. Sincere appreciation is expressed for the contributions made by all individuals in the preparation of this report. Credit also must be given to the city commission for their commitment to prudent fiscal management practices that emphasize long-term financial stability.

Respectfully submitted,

dama loche

Laura Toebe, Director of Finance

### Section II City of Sunrise, Florida Financial Section

### REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Sunrise, Florida (the City) as of and for the year ended September 30, 2007, which collectively comprise the City's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these basic financial statements based on our audit. We did not audit the financial statements of the Pension Trust Funds, which represent 82% of the total assets of the aggregate remaining fund information. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Pension Trust Funds are based upon the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Pension Trust Funds were not audited in accordance with Government Auditing Standards issued by the Comptroller of the United States. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City, as of September 30, 2007, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States.

-11-

MIAMI = FORT LAUDERDALE = WEST PALM

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida Page Two

In accordance with Government Auditing Standards, we have also issued a report dated February 22, 2008 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis on pages 13 through 24 and the Schedule of Funding Progress on page 79 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund financial statements and schedules and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and Chapter 10.550, Rules of the Auditor General. The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards and state financial assistance projects have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The information identified in the table of contents as the Introductory and Statistical Sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements, and, accordingly, we express no opinion thereon.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)

The following discussion and analysis of the City of Sunrise's financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2007. Please read it in conjunction with the letter of transmittal which can be found on pages 1-6 of this report and the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

### **General Fund**

- At the end of the current fiscal year, undesignated fund balance for the general fund was \$44,553,809 or 49.2% of general fund revenues and 54.3% of total general fund expenditures. The undesignated fund balance increased by \$4,321,891 from fiscal year 2006.
- General fund revenues and other financing sources decreased by \$3,319,654, a decrease of 3.3% from fiscal year 2006.
- General fund expenditures and other financing uses decreased by \$7,266,450, or 7.4% lower than last fiscal year.

### **Governmental Activities**

- On a government-wide basis for governmental activities, the City's general revenues of \$79,964,533 were \$9,997,005 more than the \$69,967,528 of expenses net of program revenue.
- As of September 30, 2007, the City's governmental activities reported total ending net asset balances of \$311,070,451. Approximately 51% of this total amount, \$158,620,682, is unrestricted and available for use within the City's designation and policies.

### **Entity-wide**

• The City's total net assets, on a government-wide basis, totaled \$596,043,046 at September 30, 2007, an increase of 1.7% over September 30, 2006. Of this amount, \$266,949,345 is unrestricted.

### USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

The City's basic financial statements are presented within the financial section of this Comprehensive Annual Financial Report (CAFR). As illustrated in the following chart, the financial section has three components: management's discussion and analysis (this section), the basic financial statements and required supplementary information.

# Government-wide Governmental Activities (Full Accrual) Business-Type Activities (Full Accrual) Notes to the Financial Statements REQUIRED SUPPLEMENTARY INFORMATION (Other than MD&A)

### **GOVERNMENT-WIDE STATEMENTS**

The government-wide financial statements, the Statement of Net Assets and the Statement of Activities, report information about the City as a whole using accounting methods similar to those used by private-sector companies; they provide both long-term and short-term information about the City's overall financial status. The Statement of Net Assets includes all of the City's assets and liabilities, reported using the full accrual basis of accounting. The Statement of Activities accounts for all of the current year's revenues and expenses, regardless of when cash is received or paid.

The government-wide financial statements report the City's net assets and changes in them. The City's net assets - the difference between assets and liabilities - is one way to measure the financial health, or financial position, of the City. Over time, increases or decreases in net assets are an indicator of whether the financial position of the City is improving or deteriorating. However, in order to assess the overall health of the City, other non-financial factors such as changes in the City's property tax base and condition of the infrastructure must be considered.

The City's government-wide financial statements are divided into two categories:

Governmental activities – Most of the City's basic services are reported here, such as police, fire and other public safety services, culture and recreation, public works and general administration. Property, franchise, utility service and sales taxes, charges for services and state and federal grants finance most of these activities. Three legal entities for which the City is financially accountable - Special Recreation District Phase I, Special Recreation District Phase II and Special Tax District No. 1 – are reported here as blended component units.

**Business-type activities** – The City's water, wastewater and gas, sanitation, recycling, stormwater and golf course operations are reported here. Fees are charged to customers to recover all or a significant portion of the costs of providing these services.

### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more information about the City's most significant funds – not the City as a whole. The fund financial statements focus on the individual parts of the City government, reporting the City's operations in more detail than the government-wide statements. The City has three types of funds:

### **Governmental Funds**

General, special revenue, debt service and capital projects funds are governmental funds, funds which focus on 1) near-term inflows and outflows of spendable resources and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information follows the governmental funds statements that explains the differences between them.

The City maintains eighteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, Public Service Tax debt service fund and Capital Improvements capital projects fund, all of which are considered to be major funds. Data from the other fifteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

### **Proprietary Funds**

Services for which the City charges customers a fee are generally reported in proprietary funds. These funds, like the government-wide statements, provide both long-term and short-term financial information. The City's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but the fund financial statements provide more detail and additional information, such as cash flows. The City uses enterprise funds to account for its water, wastewater and gas, sanitation, recycling, stormwater and golf course operations. The City uses an internal service fund (the other type of proprietary fund) to report activities that provide services for the City's other programs and activities. The Workers' Compensation fund is the City's only internal service fund. Because this service predominately benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

The proprietary fund financial statements provide separate information for the water, wastewater and gas utility system and the sanitation funds, both of which are considered to be major funds of the City. Data from the other three proprietary funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report.

### **Fiduciary Funds**

The City is the trustee, or fiduciary, for its employees' pension plans. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose. All of the City's fiduciary activities are reported in a separate Statement of Fiduciary Net Assets and Statement of Changes in Fiduciary Net Assets. The City excludes these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations. The accounting used for fiduciary funds is similar to accounting used for proprietary funds. Data from the three pension trust funds are combined into a single aggregated presentation. Individual fund data is provided in the form of combining statements elsewhere in this report.

### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

### **Statement of Net Assets**

The following table presents the condensed Statement of Net Assets:

### Summary of Statement of Net Assets As of September 30, 2007 and 2006 (in thousands)

|                               | Governme          | ental Activities | Business-ty       | pe Activities     | Total      |                |  |

| net of related debt           | 140,514           | 142,898          | 159,819           | 157,516           | 300,333    | 300,414        |  |
| Restricted                    | 11,936            | 13,273           | 16,825            | 24,018            | 28,761     | 37,291         |  |
| Unrestricted                  | 158,620           | 146,486          | 108,329           | 102,097           | 266,949    | 248,583        |  |
| Total net assets              | \$ 311,070        | \$ 302,657       | <u>\$ 284,973</u> | <u>\$ 283,631</u> | \$ 596,043 | \$ 586,288     |  |

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As of September 30, 2007, assets exceeded liabilities by \$596,043 thousand.

The majority of the City's net assets reflect its investment in capital assets (50.4%), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (4.8%) represents resources that are subject to external restrictions on how they may be used, such as debt or capital projects. The remaining balance of unrestricted net assets (44.8%) may be used to meet the City's ongoing obligations to its citizenry.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same held true for the prior fiscal year.

The City's net assets increased by \$9,755 thousand during the current fiscal year. This increase represents the degree to which increases in ongoing revenues have outstripped similar increases in ongoing expenses, as well as rate increases.

### **Statement of Activities**

The following table provides a condensed comparative summary of the City's operations for the fiscal years ended September 30, 2007 and 2006:

Changes in Net Assets
For the Fiscal Years Ended September 30, 2007 and 2006
(in thousands)

### Revenues

For the fiscal year ended September 30, 2007, revenues from governmental activities totaled \$119,974 thousand.

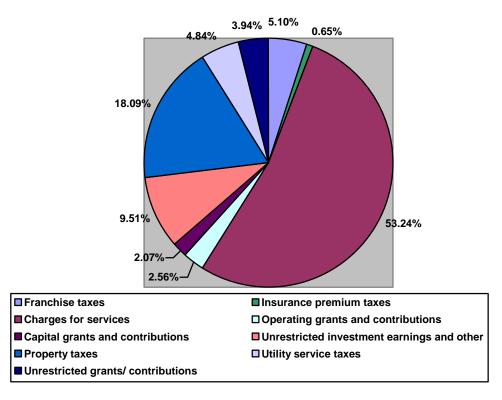

General property taxes were \$38,095 thousand. The increase in tax revenues is primarily attributable to an increase in the City's assessed real property tax base, which increased 18.8% for fiscal year 2007.

Charges for services decreased by \$1,566 thousand, primarily due to a reduction in building permits since because of diminished post-Hurricane Wilma reconstruction.

Operating grants and contributions decreased by \$8,298 thousand primarily due to conclusion of Hurricane Wilma related grants.

Unrestricted investment earnings increased by \$2,920 thousand. The average interest rate for fiscal year 2007 was approximately 5.4% as compared to the average interest rate for fiscal year 2006 of approximately 4.6%.

### Sources of Revenue: Government-wide for FY 2007

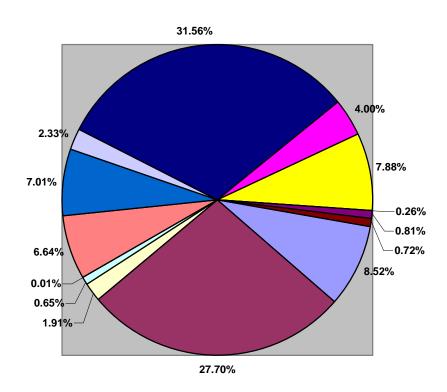

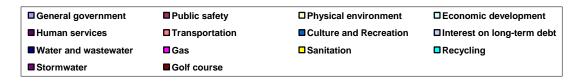

### **Expenses**

For the fiscal year ended September 30, 2007, expenses for governmental activities totaled \$109,977 thousand, which includes increases for employee compensation expenses.

Expenses for the City's business-type activities, which provide water, wastewater and gas, sanitation, recycling and stormwater services and golf course operations, totaled \$90,825 thousand, an increase of \$1,520 thousand from fiscal year 2006. This increase is due to increases for employee compensation.

### Functional Expenses: Government-wide for FY 2007

### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

For the fiscal year ended September 30, 2007, the governmental funds reflect a combined fund balance of \$169,833,866, an increase of \$10,034,911 in comparison with the prior year. Approximately 95 percent of this total amount (\$162,171,016) constitutes unreserved fund balance, which is available for spending at the City's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to pay debt service (\$4,554,846), 2) advances (\$875,304) or 3) for a variety of other restricted purposes (\$2,232,700). This year's increase in fund balance is due to a number of reasons. The general fund's revenues and other financing sources were \$7,339,228 in excess of its expenditures and other financing uses. Differences between actual revenues and the final budget occurred in a variety of revenue sources. Specifically, licenses and permits revenue increased by \$2,207,044 mainly due to permitting of Republic Services Headquarters and Lakeshore Office Plaza II; charges for services increased by \$1,109,617 due to additional revenues of approximately \$170 thousand for new construction protective inspections, \$500 thousand for police/fire special details and overtime reimbursements, and \$130,000 for EMS fees; investment earnings increased by \$2,208,264 due to more favorable interest rates; miscellaneous revenues increased by \$1,311,144 due in large part to the City's pro-rata share of revenues from resource recovery from solid waste of \$959,910. In addition, position vacancies resulted in salary and related fringe benefit savings. The fund balance of the Capital Improvements capital projects fund increased by \$7,147,004 due to transfers of \$6,255,682 from the general fund, \$4,000,000 from the public improvement debt service fund and \$1,289,000 from Open Space Preservation special revenue fund. The other governmental funds fund balance decreased by \$5,012,478. This was due primarily to expenditures and other financing uses exceeding revenues and other financing sources in the Emergency Management (\$2,713,396) and Open Space Preservation (\$1,136,638) special revenue funds and the public improvement (\$906,446) debt service fund.

### GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget totaled a \$10,406,104 increase in appropriations. Of this increase, \$438,932 was funded from investment earnings, \$25,018 was funded through contract fees, \$652,277 was funded through various grants, \$1,374,674 was funded through insurance premium taxes, and \$7,915,203 was funded from the general fund unreserved fund balance. Highlights of the supplemental appropriation follow:

- \$662,831 in increases for general government activities. Main component of the increase was supplemental appropriations of \$549,318 for the Home Purchase Assistance program.
- \$2,839,302 in increases allocated to public safety. Included in this amount was a supplemental appropriation of \$1,374,674 needed to fund contributions to the Police and Firefighters' Pension Plans and \$653,016 for overtime and related benefits for police/fire special details. In addition, an appropriation of \$705,000 was needed for contractual building inspectors and plan reviewers.

- \$46,289 in increases for culture and recreation
- \$6,857,682 in increases for transfers out (\$1,002,000 to Emergency Management fund for Hurricane Wilma Resident Assistance Program and \$5,855,682 to Capital Improvements capital projects fund. The majority of the additional funding for the Capital Improvements capital projects fund was for Open/Greenspace Improvements \$2,500,000, Landscaping Restoration \$1,500,000, Streetscape Improvements \$775,000 and \$750,000 for Tennis Club Phase III).

| Revenues and other financing sources  |                 |              |                |
| Taxes                                 | \$ 40,167       | \$ 41,542    | \$ 41,625      |
| Licenses and permits                  | 6,284           | 6,284        | 8,491          |
| Intergovernmental                     | 9,133           | 9,786        | 9,822          |
| Charges for services                  | 12,395          | 12,419       | 13,529         |
| Other                                 | 13,140          | 13,579       | 17,077         |
| Transfers in                          | 7,772           | 7,772        | 7,772          |
| Sale of capital assets                |                 |              | 91             |
| Total                                 | 88,891          | 91,382       | 98,407         |
| Expenditures and other financing uses |                 |              |                |
| Expenditures                          | 90,980          | 94,529       | 81,989         |
| Transfers out                         | 2,222           | 9,079        | 9,079          |
| Total                                 | 93,202          | 103,608      | 91,068         |
| Net change in fund balances           | \$ (4,311)      | \$ (12,226)  | \$ 7,339       |

Actual general fund revenue and other financing sources exceeded original budgeted revenues and other sources by \$9,516 thousand. This increase is primarily due to receipt of insurance premium tax revenue (\$1,375 thousand), increased occupational license revenue (\$126 thousand), additional building (\$1,859 thousand) and planning permits (\$221 thousand), code liens satisfaction revenue (\$167 thousand), revenue sharing revenues (\$122 thousand), FEMA grants (\$682 thousand), police and fire overtime reimbursements (\$285 thousand), police and fire special detail revenue (\$216 thousand), fire inspections for new construction (\$167 thousand), increased cost recovery fees (\$150 thousand), resource recovery from solid waste revenues (\$959 thousand), increased EMS fees (\$131 thousand), and additional investment earnings (\$2,208 thousand). The original budget was amended to account for insurance premium tax revenue, increased interest income, and additional grant awards resulting in revenue collections exceeding the final budget by \$7,025 thousand. Primarily due to position vacancies resulting in salary and related payroll cost savings and minimal economic development spending, actual general fund expenditures were less than the final budget by \$12,540 thousand.

### **CAPITAL ASSETS**

At the end of fiscal year 2007, the City's governmental activities had invested \$222,322,906 in a variety of capital assets and infrastructure, which represents a net decrease of \$6,636,010. The City's investment in capital assets for its business-type activities amounts to \$339,440,543, which represents a net increase of \$8,027,873. The following table reflects the components of capital assets and their changes:

Major capital asset events during the current fiscal year included the following:

- The City has invested more than \$3 million in Sunrise Lakes Boulevard roadway improvements and upgrades. These projects included milling and resurfacing of asphalt, replacing portions of sidewalks/curbs/gutters, drainage improvements, landscape/irrigation upgrades, signage and installation of decorative concrete at intersections.
- The City recently completed \$818,379 in streetscape improvements along Flamingo Road between Panther Parkway and West Oakland Park Boulevard. An additional \$2.7 million in streetscape improvements along Pine Island Road is nearing completion.
- Various system additions and improvements were completed in the Water, Wastewater, and Gas Utility System at a cost of \$1,517,697.

Planning, design or construction is in progress on the following projects:

- Infrastructure: Additional City-wide street repaving, sidewalk, wall, swale and median improvements including concrete pavers, landscaping and irrigation upgrades.
- Park Improvements: Expansion of the Sunrise Tennis Club Park and other open green space improvements, such as Neighborhood Park and Children's Park.

• Buildings: Construction of a new City Hall & Civic Plaza, Public Safety Headquarters, Sunset Strip Branch Library and Village Multi-Purpose Center and renovation of Fire/rescue station #72, located adjacent to City Hall.

Additional information on the City's capital assets can be found in note IV.C to the financial statements.

### LONG-TERM DEBT

At the end of the current fiscal year, the City had total debt outstanding of \$281,555,326. Of this amount, \$251,655,326 represents bonds secured solely by specified revenue sources, \$3,850,000 comprises public improvement bonds (bank notes), and \$26,050,000 is ad valorem tax bonds. More detailed information about the City's long-term liabilities is presented in Note IV.F and IV.G to the financial statements.

The City's revenue bonds and ad valorem tax bonds both maintain an insured rating of "Aaa" from Moody's Investor Service and an insured rating of "AAA" from Standard and Poor's. The public improvement bonds (bank notes) are not rated.

### **ECONOMIC FACTORS**

In the last five years for which data is available from the U. S. Department of Labor Bureau of Labor Statistics, the City's resident labor force increased over 2,464, with total resident employment increasing to 49,041. As of September 2007, the City's resident unemployment rate was 3.6%, which is higher than the September 2006 rate of 3.1%.

As of September 2007 (the latest data available from the U. S. Census Bureau), the City's median household income was \$48,877, comparing favorably to the State's median household income of \$45,495.

### REQUEST FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 10770 W. Oakland Park Blvd., Sunrise, Florida 33351.

# CITY OF SUNRISE, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2007

| Amounts reported for governmental activities in the statement of activities are different because:  |           |             |
|---|-----------|-------------|
| Net change in fund balances total governmental funds  | \$        | 10,034,911  |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which   |           |             |
| depreciation exceeded capital outlays in the current period.  |           | (6,511,583) |
| The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, write-offs and donations) is to increase/(decrease) net assets.  |           | (124,426)   |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. |           | 4,082,294   |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.   |           | (356,366)   |
| Revenues reported in the funds that relate to prior periods are not reported in the statement of activities.  |           | (565,045)   |
| Internal service funds are used by management to charge the costs of workers' compensation to individual funds. The net revenue of certain activities of the internal service fund is reported with governmental activities.  |           | 1,853,049   |
| Change in net assets of governmental activities   | <u>\$</u> | 8,412,834   |

#### I. Summary of Significant Accounting Policies

#### A. Reporting entity

The City of Sunrise, Florida (the City) was incorporated in 1961 and has a population of approximately 90,000 living within an area of approximately 18 square miles. The City was established under Charter 61-2902, which was adopted in 1961 with a mayor/commission form of government. By referendum, the city commission/city manager form of government replaced the mayor/commission form of government in 1989. Five elected city commission members comprised of the mayor, deputy mayor, assistant deputy mayor and two commissioners govern the City.

In evaluating the City as a reporting entity, management has addressed all potential component units for which the City may or may not be financially accountable and, as such, be includable within the City's financial statements. The City (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the City. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. If the component unit's governing body is substantively the same as the City's, the component unit is blended (reported as if it was part of the City's operations).

#### **Blended component units**

**Special Recreation District Phase I** was created by Ordinance 183. It was established to provide recreational facilities. The governing body of the City is the governing body of the Special Recreation District.

**Special Recreation District Phase II** was created by Ordinance 185. It was established to provide recreational facilities. The governing body of the City is the governing body of the Special Recreation District.

**Special Tax District No. 1** (the District) was created by Ordinance 373. The District provides, or assists in the provision of, public works lying within its territorial limits. All elected and appointed officials and employees of the City are, ex officio, the officials and employees of the District.

The City Commission establishes rates for special assessments and ad valorem taxes for the special districts described above.

Separate financial statements are not required or prepared for the special districts. The special districts' financial statements are included in the debt service funds, as well as the capital projects fund for the Special Tax District No. 1, of the City.

#### B. Government-wide and fund financial statements

The financial statements of the City have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard setting body for governmental accounting and financial reporting. Pronouncements of the Financial Accounting Standards Board (FASB) issued prior to December 1, 1989 are followed in both the government-wide and proprietary fund financial statements to the extent that these standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent FASB pronouncements for their business-type activities and enterprise funds subject to this same limitation. The City has elected not to follow subsequent FASB guidance.

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from these statements. Exceptions to this are administrative charges where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the City's water and sewer function and various other functions of the City. The net residual amounts due between governmental and business-type activities are presented as internal balances in the statement of net assets. Amounts reported in the funds as receivable from or payable to fiduciary funds are included in the statement of net assets as receivable from and payable to external parties, rather than as internal balances.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement focus, basis of accounting and financial statement presentation

Measurement focus is commonly used to describe the types of transactions and events that are reported in a fund's operating statement. Basis of accounting refers to the point at which revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements and relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. The economic resources measurement focus is on the determination of net income and capital maintenance. All fund assets and liabilities, current and non-current, are accounted for in the fund. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. The current financial resources measurement focus is on the determination of and changes in financial position. This concept emphasizes the acquisition, use and balance of governmental fund expendable available financial resources and related current liabilities. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, principal and interest on general long-term leases and compensated absences are recognized when due.

Property taxes, franchise taxes, gas taxes, utility service taxes, fuel tax refunds, administrative charges and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. In applying the susceptible to accrual concept to intergovernmental revenues, revenues are recognized when all eligibility requirements are met. All other revenue items are considered to be measurable and available only when cash is received by the City.

Governmental funds are used to account for the City's general government activities. The City reports the following major governmental funds.

The general fund is the operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The Public Service Tax debt service fund is used to accumulate public service tax monies for Public Facilities Revenue Bonds, Series 1992A, 1992B and Series 1999.

The Capital Improvements capital projects fund accounts for general capital projects and the acquisition and construction in the Neighborhood Renaissance Program.

The other governmental funds are a summarization of all the non-major governmental funds.

The City reports the following major proprietary funds:

The Water, Wastewater, and Gas Utility System enterprise fund accounts for the provision of water, wastewater and natural gas services to residents inside and outside the City.

The Sanitation enterprise fund accounts for the provision of solid waste disposal services to City residents.

The other proprietary funds are a summarization of all the non-major enterprise funds.

Additionally, the City reports the following fund types:

The internal service fund accounts for worker compensation services provided by one department to other departments of the City on a cost-reimbursement basis.

The pension trust funds account for the activities of the City's general employees', police officers' and firefighters' pension plans, which accumulate resources for pension benefit payments to qualified employees.

Amounts reported as program revenues include 1) charges to customers for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues, rather than as program revenues. General revenues include all taxes.

Certain indirect costs are included in the program expense reported for business-type activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the City's enterprise funds and internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative fees, general expenses and depreciation on capital assets. Operating expenses for the internal service fund include claims and general expenses. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### D. Assets, liabilities and net assets or equity

#### 1. Cash and cash equivalents

The City has defined cash and cash equivalents to include cash on hand, demand deposits, short-term investments (including restricted assets) with original maturities at time of purchase of three months or less, Florida State Board of Administration (the Board) Local Government Surplus Funds (LGSF) trust fund investment pool and equity in the City's pooled cash.

Pooled cash is an investment tool employed by the City that maximizes earning potential by investing large amounts of idle cash for short periods of time. It is available for use by all funds except those whose cash and investments must be segregated due to bond covenants or other legal restrictions. The City maintains pooled cash accounts in all of its funds except for the pension trust funds, the Water, Wastewater and Gas Utility System enterprise fund, all debt service funds and the Special Tax District No. 1 capital projects fund. Interest income is distributed monthly based on average daily balances. Each fund's equity in the City's pooled cash is considered to be a cash equivalent since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

The LGSF trust fund investment pool assists local governmental units in maximizing earnings on surplus funds invested while retaining fund accessibility by being highly liquid in nature. It is governed by Chapter 19-7 of the Florida Administrative Code, which identifies the Rules of the Board. These rules provide guidance and establish the general operating procedures for the administration of the LGSF trust fund investment pool. Additionally, the Office of the Auditor General performs the operational audit of the activities and investments of the Board. While the Board has statutory authority for a wide range of derivative instruments, the LGSF trust fund investment pool did not hold any investments at September 30, 2007 that could be classified as "derivative" investments under GASB Technical Bulletin 2003-1. The Board participated in several securities lending programs during fiscal year 2006-2007, although only one program – Dresdner – was active at September 30, 2007. While the Securities and Exchange Commission (SEC) rule 2a-7 does not directly address the portion of the portfolio that may be on loan at any given time, the Board has adopted industry practice for a 2a-7 type fund that generally restricts lending activity to no more than 1/3 of the portfolio. The collateral held for the securities lending transactions exceeded the fair value of the securities underlying the agreements. No significant violations of legal or contractual provisions occurred and no losses were incurred due to borrower or lending agent defaults. The LGSF trust fund investment pool is not a registrant with the SEC. However, the Board has adopted operating procedures consistent with the requirements for a 2a-7 fund, and thus, pool investments are recorded at amortized cost. Fair value is determined on a monthly basis, and specific action taken if the difference between fair value and amortized cost exceeds .5%. As of September 30, 2007, the ratio of fair value divided by amortized cost was 99.72%. The method used to determine participants' shares sold and redeemed is the amortized cost method. Securities lending cash collateral investments are recorded at fair value, since SEC Rule 2a-7 does not impose the same maturity limitations and other constraints for collateral investments.

#### 2. Investments

The City's investments, including restricted investments, consist of U.S. government securities, corporate bonds, common stocks, mutual funds, obligations of government agencies unconditionally guaranteed by the U.S. government, and international equity funds.

Bond ordinances authorize trust account investments in deposit accounts of any banks that are fully insured by federal depository insurance or fully collateralized by federal securities, repurchase agreements and general obligation or full faith credit bonds, notes or obligations of any state or subdivision provided such obligations meet certain rating requirements. The bond ordinances also provide that monies on deposit in the reserve account may be invested only in federal securities.

The City's pension funds' investment policies are determined by the respective Boards of Trustees. Their portfolios may consist of obligations guaranteed by the U.S. government, time or savings accounts, corporate bonds, common or preferred stocks, international equity funds and mutual funds. Fair values of investments are determined as follows: securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the fiscal year at current exchange rates; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the past reported bid and asked prices; and investments that do not have an established market are reported at estimated fair value as determined by the Board of Trustees. Time deposits and short-term investment pools are valued at cost that approximates market.

Investments are stated at fair value (quoted market price or the best available estimate thereof). However, money market investments, including short-term, highly liquid investments with a remaining maturity at time of purchase of one year or less, are reported at amortized cost.

#### 3. Receivables and payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Customer receivables are shown net of an allowance for uncollectibles. All assessments are reported, including delinquencies.

#### 4. Inventories and prepaid items

All City inventories are maintained on a consumption basis of accounting where items are purchased for inventory and charged as an expenditure/expense as the items are consumed. The reported governmental fund type inventories are offset by a fund balance reserve that indicates that they do not constitute available spendable resources. Inventories held by the general fund consist of fuel and tires. Inventories included in the special revenue funds consist of irrigation parts and road materials. Inventories included in the enterprise funds consist of chemicals, meters, fuel and parts and supplies. Governmental fund inventories are stated at cost, using the first-in/first-out (FIFO) method. The chemicals and fuel inventories in the enterprise funds are stated at lower of cost or market, using the FIFO method; the meters and parts and supplies inventories are stated at lower of cost or market, using the weighted average method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### 5. Restricted assets

Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The "revenue bond operations and maintenance" account is used to report resources set aside to pay operating and maintenance expenses. The "revenue bond construction" account is used to report those proceeds of revenue bond issuances that are restricted for capital expenses. The "revenue bond debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months. The "revenue bond reserve" account is used to report resources set aside to make up potential future deficiencies in the revenue bond debt service account. The "revenue bond renewal and replacement" account is used to report resources set aside to cure deficiencies in the debt service account or the reserve account, or to fund asset renewals and replacements.

#### 6. Capital assets

Capital assets, which include property, plant, equipment, vehicles and infrastructure assets (e.g., roads, bridges, etc.), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Generally, the City defines capital assets as assets with an initial, individual cost of \$1,000 or greater and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Contributed assets are recorded at estimated fair market value as of the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest expense related to borrowings used for construction projects is expensed as incurred in the Water,

Wastewater, and Gas Utility System enterprise fund. Rate regulation precludes recovery of such costs in future periods and therefore, capitalization of interest is inappropriate in accordance with FASB Statement No. 71, "Accounting for the Effects of Certain Types of Regulation".

Capital assets are depreciated using the straight-line method over the following estimated useful lives.

| Intangibles                       | 5 years       |
|-----------------------------------|---------------|
| Buildings                         | 25 - 50 years |
| Improvements other than buildings | 5-20 years    |
| Water and wastewater plant        | 30 - 50 years |
| Gas plant                         | 25 - 50 years |
| Deep well injection system        | 50 years      |
| Machinery & equipment             | 3-10 years    |
| Vehicles                          | 5-10 years    |
| Public domain infrastructure      | 30 - 50 years |

Contributions of funds from federal, state or local sources for the purpose of purchasing property, plant and equipment and connection fees intended to recover the cost of connecting new customers to the system are recorded as capital contributions on the proprietary statement of revenues, expenses, and changes in fund net assets.

#### 7. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits, which will be paid to employees upon separation from City service if certain criteria are met. The accumulated compensated absences and associated employee-related costs are accrued when incurred in the government-wide and proprietary fund financial statements. The current portion is the amount estimated to be used in the following fiscal year. The compensated absences for governmental funds represents a reconciling item between the fund and the government-wide presentations.

#### 8. Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums/discounts, issuance costs and future appreciated principal (on capital appreciation bonds) are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the government-wide financial statements and proprietary fund types in the fund financial statements, the difference between the re-acquisition price (new debt) and the net carrying value of the old debt is deferred and amortized as a component of interest expense using the proportionate to stated interest method.

#### 9. Net assets or fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt represent the City's investment in capital assets. Net assets are reported as restricted when there are limitations imposed to meet the various covenants as may be specified and defined in the revenue bond indenture or other legal document.

#### II. Reconciliation of Government-wide and Fund Financial Statements

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balances* – *total governmental funds* and *net assets of governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds". The details of this \$89,683,032 are as follows:

| Bonds payable  | \$<br>81,039,803 |
|--|------------------|
| Less: Deferred charge for issuance costs (to be amortized  |                  |
| over life of debt)   | (275,839)        |
| Compensated absences   | 8,919,068        |
| Net adjustment to reduce fund balances - total governmental funds to arrive at net assets of governmental activities | \$<br>89,683,032 |

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances* – *total governmental funds* and *change in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense". The details of this \$(6,511,583) difference are as follows:

| Capital outlay  | \$ 1 | 13,333,051  |
|---|------|-------------|
| Depreciation expense  | (    | 18,809,356) |
| Capitalized operating expenditures  |      | 133,958     |
| Non-capitalized capital outlay expenditures   |      | (1,169,236) |
| Net adjustment to decrease <i>net change in fund balances</i> - total governmental funds to arrive at change in net assets of governmental activities | \$   | (6,511,583) |

Another element of that reconciliation states that "the net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, write-offs and donations) is to increase/(decrease) net assets". The details of this \$(124,426) difference are as follows:

In the statement of activities, only the gain on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the capital assets sold.

\$ (115,399)

Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

11,715

The statement of activities reports losses arising from the write-off of capital assets. Governmental funds do not report any loss resulting from a capital asset write-off.

(20,742)

Net adjustment to decrease *net change in fund balances* - total governmental funds to arrive at change in net assets of governmental activities

\$ (124,426)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets". The details of this \$4,082,294 difference are as follows:

| Amortization of bond issuance costs  | \$       | (19,703)    |
|--|----------|-------------|
| Capital appreciation bonds accretion   |          | (2,556,087) |
| Principal repayments:  |          |             |
| Bond repayments  |          | 6,630,000   |
| Lease repayments   |          | 28,084      |
| Net adjustment to increase <i>net change in fund balances- total governmental funds</i> to arrive at <i>change in net assets</i> | ¢        | 4.092.204   |
| of governmental activities   | <u> </u> | 4,082,294   |

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds". This \$(356,366) represents the increase in compensated absences.

Another element of that reconciliation states that "revenues reported in the funds that relate to prior periods are not reported in the statement of activities". The details of this \$(565,045) are as follows:

| Special Recreation District Phase I special assessment          | \$<br>(277,752) |
|---|-----------------|
| Special Recreation District Phase II special assessment         | <br>(287,293)   |
| Net adjustment to decrease <i>net change in fund balances</i> - |                 |
| total governmental funds to arrive at change in net assets      |                 |
| of governmental activities                                      | \$<br>(565,045) |

#### III. Stewardship, Compliance and Accountability

#### A. Compliance with finance related legal and contractual provisions

The City had one violation of finance related legal and contractual provisions. An October 1, 2007 Utility System refunding revenue bond, Series 1998A, maturity payment in the amount of \$50,000 was made on October 11, 2007 due to trustee oversight.

#### **B.** Budgetary information

Budgets are legally adopted for all governmental and proprietary fund types. Annual budgets are adopted on a basis consistent with generally accepted accounting principles. Project-length budgets are adopted in the capital projects funds. All unencumbered annual appropriations lapse at fiscal year-end. Significant appropriations outstanding at year-end are reappropriated in the following year.

The appropriated budget is prepared by fund, function, and department. The city manager may make transfers of appropriations among programs within a department, office or agency. Transfers of appropriations between departments require the approval of the city commission.

Expenditures/expenses may not legally exceed appropriations at the individual fund level; exception is the general fund expenditures, which may not exceed appropriations at the department level. Supplemental appropriations for operating and capital expenditures of \$1,057,521 for the general fund, \$1,693,803 for the special revenue funds, \$679 for the debt service funds and \$6,595,944 for the capital projects funds were approved during the year and are included in the final budget. The City follows these procedures in establishing the legally adopted budgetary data:

- 1. Prior to August 1, the city manager submits to the city commission a proposed annual budget, budget message and capital program for the fiscal year commencing on October 1. The operating budget includes proposed expenditures/expenses and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally enacted through the passage of an ordinance as required by City charter.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders) outstanding at year-end are reported as designations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

#### IV. Detailed Notes on all Funds

#### A. Deposits and investments

As of September 30, 2007, the fair value of the City's investments, exclusive of the Pension trust funds, was \$11,839,278 in U.S. Treasuries, \$7,650,000 in certificates of deposit, and \$274,796,685 in the LGSF trust fund investment pool. The pool's investments have a maturity of less than one year and are classified as cash and cash equivalents. Additionally, cash and cash equivalents is comprised of \$59,050 on hand, \$35,583,391 with qualified public depositors and \$11,975,564 with authorized depositories pursuant to fiduciary agreements related to its utility bonds.

As of September 30, 2007, the City had the following investments in the General Employees' Pension trust fund:

|                        |              | <u>Investment Maturities (In Years)</u> |              |              |  |  |
|------------------------|--------------|---|--------------|--------------|--|--|
| <b>Investment Type</b> | Fair Value   | <u>1-5</u>                              | <u>6-10</u>  | More than 10 |  |  |
| U.S. Treasuries        | \$ 472,999   | \$ -                                    | \$ 157,111   | \$ 315,888   |  |  |
| U.S. agencies          | 6,400,638    | 2,339,919                               | -            | 4,060,719    |  |  |
| Corporate bonds        | 5,403,351    | 606,362                                 | 1,067,563    | 3,729,426    |  |  |
| Bond mutual fund       | 14,113,746   | <u>=</u>                                | 14,113,746   |              |  |  |
|                        | \$26,390,734 | <u>\$2,946,281</u>                      | \$15,338,420 | \$8,106,033  |  |  |

The City's Police Officers' Pension trust fund contained the following investments as of September 30, 2007:

|              |                         | Lehman   |
|--------------|-------------------------|--|
| Fair Value   |                         | Aggregate<br>Bond Rating   |
| \$ 1,957,415 | 3.90                    | AAA  |
| 15,743,167   | 3.90                    | AAA  |
| 1,500,296    | 4.90                    | A-AAA  |
| \$19,200,878 |                         |  |
|              | 3.98                    |  |
|              | 15,743,167<br>1,500,296 | \$ 1,957,415 3.90<br>15,743,167 3.90<br>1,500,296 4.90<br>\$19,200,878 |

At September 30, 2007, the City's Firefighters' Pension trust fund had the following investments:

|                        |              | Investment Maturities (In Years) |             |             |                    |  |
|------------------------|--------------|----------------------------------|-------------|-------------|--------------------|--|
| <b>Investment Type</b> | Fair Value   | Less than 1                      | <u>1-5</u>  | <u>6-10</u> | More than 10       |  |
| U.S. Treasuries        | \$ 1,187,550 | \$ -                             | \$ 674,627  | \$ 187,486  | \$ 325,437         |  |
| U.S. agencies          | 10,937,321   | 423,019                          | 2,119,439   | 2,991,908   | 5,402,955          |  |
| Corporate bonds        | 4,666,720    | 198,113                          | 1,257,069   | 1,531,092   | 1,680,446          |  |
|                        | \$16,791,591 | \$ 621,132                       | \$4,051,135 | \$4,710,486 | <u>\$7,408,838</u> |  |

Interest rate risk. The City, exclusive of the Pension trust funds, manages its exposure to declines in fair value by limiting the average maturity of its investment portfolio to less than one year. The LGSF trust fund investment pool's weighted average maturity is not allowed to exceed 90 days. To limit their exposure to interest rate risk, the General Employees' and Firefighters' Pension Plans diversify their investments by security type and institution, and limit holdings in any one type of investment with any one issuer with various durations of maturity. In accordance with its investment policy, the Police Officers' Pension Plan manages its exposure to declines in fair values by limiting the effective duration of its investment portfolio through the adoption of the Lehman Brothers Government/Credit Intermediate Index.

Credit risk. The City's investments, exclusive of the Pension trust funds, that are invested in U.S. government obligations are considered to have no credit risk. Consistent with State law, the LGSF trust fund investment pool, the General Employees' Pension Plan and the Police Officers' Pension Plans' investment guidelines limit corporate bonds to the top three ratings issued by one of the nationally recognized statistical rating organizations. At September 30, 2007, as a whole, the LGSF trust fund investment pool was not rated by a nationally recognized statistical rating agency. Of the General Employees' Pension Plan's investments at September 30, 2007, \$3,649,810 were rated AAA, \$14,113,746 were rated AA+, \$404,837 were rated AA, \$200,659 were rated AA-, \$437,379 were rated A+, \$549,168 were rated A and \$161,498 were rated A-; obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government in the amount of \$6,873,637 were not considered to have credit risk. The credit ratings of investments in the Firefighters' Pension Plan at September 30, 2007 were: \$233,764 rated AA, \$845,403 rated AA-, \$1,353,679 rated A+, \$1,221,041 rated A, \$293,512 rated A-, \$299,480 rated BBB+ and \$419,841 rated BBB; U. S. government guaranteed obligations of \$12,124,871 are considered to have no credit risk.

Concentration of credit risk. The LGSF trust fund investment pool's exposure to a single issuer is limited to 5% of portfolio amortized cost (excluding U.S. Treasuries and agencies) while the General Employees', Police Officers' and Firefighters' Pension Plans' investment policies do not allow for an investment in any one issuer that is five percent or more of the Plans' net assets available for benefits.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. All cash deposits are held in qualified public depositories pursuant to State of Florida Statutes Chapter 280, "Florida Security for Public Deposits Act". Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The pledging level may range from 50% to 125% depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to a public depositor not covered by insurance provided by the Federal Depository Insurance Corporation (FDIC) and the proceeds from the sale of collateral pledged by the defaulting depository, will be assessed against other qualified public depositories of the same type as the depository in default. Accordingly, all deposits are deemed insured.

Custodial credit risk – investments. For an investment, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. No custodial credit risk exposure exists for the City.

### **B.** Receivables

Receivables at September 30, 2007, are as follows:

|  | Interest                      | Taxes/<br>Franchise<br><u>Fees</u>      | Accounts  | Special<br>Assess-<br>ments | <u>Other</u>             | Intergov-<br>ernmental                        | Total<br><u>Receivables</u>  |
|--|-------------------------------|---|---|-----------------------------|--------------------------|---|--|
| Governmental activities:<br>General<br>Public Service Tax<br>Workers' Compensation<br>Other governmental                             | \$ -<br>18,193<br>-<br>24,310 | \$ -<br>508,900<br>-<br>605,848         | \$ 650,927<br>-<br>3,538  | \$ -<br>-<br>-<br>4,757,497 | \$ -<br>-<br>-<br>23,294 | \$1,476,559<br>-<br>-<br>-<br>494,690         | \$ 2,127,486<br>527,093<br>3,538<br>5,905,639                                    |
| Total – governmental<br>Activities   | <u>\$ 42,503</u>              | <u>\$1,114,748</u>                      | <u>\$ 654,465</u>   | <u>\$4,757,497</u>          | <u>\$ 23,294</u>         | <u>\$1,971,249</u>                            | <u>\$ 8,563,756</u>  |
| Amounts not scheduled for collection during the subsequent year  | <u>\$</u>                     | <u>\$</u>                               | <u>\$</u>   | <u>\$4,199,012</u>          | <u>\$</u>                | <u>\$</u>                                     | <u>\$ 4,199,012</u>  |
| Business-type activities: Water, Wastewater & Gas Utility System Sanitation Other proprietary Gross receivables Less: Uncollectibles | \$ -<br>                      | \$ -<br>-<br>-<br>-<br>-<br>-<br>-<br>- | \$ 9,714,520<br>2,481,722<br>185,876<br>12,382,118<br>(150,000)<br>\$12,232,118 | \$ 65,959<br>               | \$ - 107,453             | \$ 187,059  - 72,342  - 259,401  - \$ 259,401 | \$ 9,967,538<br>2,589,175<br>260,186<br>12,816,899<br>(150,000)<br>\$ 12,666,899 |

Revenues of the Water, Wastewater & Gas Utility System enterprise fund are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period are as follows:

| Uncollectibles related to water and wastewater sales | \$ 38,266        |
|--|------------------|
| Uncollectibles related to gas sales                  | 8,659            |
| Uncollectibles related to sanitation services        | 13,065           |
| Uncollectibles related to recycling services         | 67               |
| Uncollectibles related to stormwater services        | 920              |
| Total uncollectibles for the current fiscal year     | <u>\$ 60,977</u> |

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

|   | <u>Unavailable</u> | <u>Unearned</u>    |
|---|--------------------|--------------------|
| Special assessments not yet due (Special Recreation District Phase I)       | \$3,070,044        | \$ -               |
| Special assessments not yet due (Special Recreation District Phase II)      | 1,687,453          | -                  |
| Prepaid license fees (general fund)   | -                  | 1,031,254          |
| Prepaid inspection fees (general fund)                                      | -                  | 232,802            |
| Grant proceeds prior to meeting all eligibility requirements (general fund) |                    | 43,950             |
| Total deferred/unearned revenue for governmental funds                      | <u>\$4,757,497</u> | <u>\$1,308,006</u> |

## C. Capital assets

Capital asset activity for the year ended September 30, 2007 was as follows:

|   | Beginning<br>Balance | Increases      | Decreases      | Ending<br>Balance |
|---|----------------------|----------------|----------------|-------------------|
| Governmental activities:                |                      |                |                |                   |
| Capital assets, not being depreciated:  |                      |                |                |                   |
| Land                                    | \$ 14,226,978        | \$ -           | \$ -           | \$ 14,226,978     |

#### **D.** Construction commitments

At September 30, 2007, the City had in process various uncompleted construction projects with remaining balances totaling \$9,094,229. Funding of these projects is to be made primarily through the proceeds of the related bond issues and future taxes.

#### E. Interfund receivables, payables and transfers

The general fund advanced \$1,450,000 to the Stormwater Utility enterprise fund in the 1996-1997 fiscal year. This advance was made to enable capital purchases at the inception of the Stormwater Utility enterprise fund. This advance bears interest at the annual rate of 5.25% and is payable over 20 years. The general fund reserves fund balance for \$835,304, the non-current portion of the loan. The current portion of the loan is recorded as an interfund receivable/payable.

The general fund advanced \$40,000 to the CDBG Grant special revenue fund. This advance was made to enable initial expenditures in this fund prior to grant reimbursement. The general fund reserves fund balance for \$40,000.

The composition of interfund balances as of September 30, 2007, is as follows.

| <u>Fund</u>                          | Interfund<br><u>receivables</u> | Interfund<br><u>payables</u> |
|--------------------------------------|---------------------------------|------------------------------|

| Total pension trust funds                 | 230,390      |                   |           |
| Total due to/due from                     | \$ 1,774,912 | \$ 1,774,912      |           |

The reasons for the due to/due from other funds are:

- 1) Salary, fringe benefit, operating expense reimbursements
- 2) Utility service taxes
- 3) Pension plan funding
- 4) Franchise fee receivable/payable
- 5) Property taxes

#### Interfund transfers:

| Non-major enterprise funds   | 1,029,967 °            |                |                        |                 | 1,029,967    |
| Total                        | <u>\$ 9,079,418</u>    | \$ 4,353,845   | \$ 8,581,206           | \$ 126,414      | \$22,140,883 |

The reasons for these transfers are set forth below:

- a) Move unrestricted revenues collected in funds to finance various programs accounted for in other funds in accordance with budgetary authorizations
- b) Provide funds for capital outlay
- c) Subsidize operations

#### F. Leases

The City leases office equipment and other items. There are no material operating leases with noncancellable terms in excess of one year. In 1986, the City entered into a long-term capital lease agreement with Indian Trace Community Development District for pump station facilities. The final payment on this lease was made in December 2006.

#### G. Long-term debt

Revenue bonds and other long-term liabilities directly related to and intended to be paid from proprietary funds are included in the accounts of such funds. Utility system revenue bonds are collateralized by a lien on the revenues earned by the utility system.

General Long-Term Debt Bonds are collateralized by multiple sources. The Public Facilities refunding revenue bonds are collateralized by a lien on and a pledge of a tax upon purchases within the city of electricity, metered and bottled gas, water service and telegraph and telecommunications service. The Sunrise Lakes Phase I and Phase II Special Recreation Districts' public improvement refunding bonds are collateralized by a general obligation pledge by the Districts of their full faith and credit; if the payments to the City as paying agent are insufficient to meet the bond requirements, the bonds will be paid from taxes to be levied and collected on all property in the respective Districts. The Special Tax District No. 1 ad valorem tax bonds and ad valorem tax refunding bonds are collateralized by voted debt service ad valorem taxes to be levied upon all taxable property within the District.

The bonds of the three special districts are not general or limited obligation debt or bonded indebtedness of the City and the City is not obligated to pay the bonds or bond service charges.

Annual debt service requirements to maturity for revenue bonds are as follows:

| Year Ending             | Governmental Activities |              | Business-type Activities |               |

#### **Defeased debt**

The City has a number of bond issues that have been refunded. Refunding provides for an irrevocable deposit with an escrow agent (a third party banking institution) of sufficient funds to pay the principal and interest, when due, on the refunded bonds to the earliest call date. On the earliest call date, all bonds outstanding are redeemed and interest subsequent to the refunding date will cease. Bonds are typically refunded for either economic gain to the governmental unit or to eliminate restrictive and antiquated covenants often associated therewith. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the City's books.

Summarized below are the refunded bonds of the City's business-type activities:

| Type                            | Series  | Year<br><u>Refunded</u>              | Outstanding as of 9/30/07                                |  |  |  |  |
|---------------------------------|---|--------------------------------------|--|--|--|--|--|
| Utility System revenue bonds    | Series         Refunded           ne bonds         1976         198           1976A         198           1976B         198           1976C         198           1976D         198           1976E         198           1976F         198           1983A         198           1983C         198 |                                      |  |  |  |  |  |
|                                 | 1976F<br>1983A<br>1983C   | 1983<br>1983<br>1985<br>1985<br>1998 | 1,035,000<br>665,000<br>680,000<br>980,000<br>10,855,000 |  |  |  |  |
| Total outstanding defeased debt |   |                                      | \$ 24,200,000  |  |  |  |  |

#### Change in long-term liabilities

Long-term liability activity for the year ended September 30, 2007, was as follows:

| Governmental activities:                               |           | Beginning<br>Balance | _  | Additions   | Reductions              |    | Ending<br>Balance | Due Within One Year |
|--|-----------|----------------------|----|-------------|-------------------------|----|-------------------|---------------------|

<sup>\*</sup> due to future appreciated principal accretion

For governmental activities, other including capital leases and compensated absences are generally liquidated by the general fund. Claims and judgments are liquidated by the Workers' Compensation internal service fund.

#### H. Property taxes

The State of Florida permits the City to levy taxes up to 10 mills of assessed property valuation for the general fund except for special benefits and debt service obligations which may be issued with the approval of those taxpayers subject to ad valorem taxes. The operating millage rate levied by the City and budgeted for the 2007-2008 fiscal year is 5.1232 mills. Maximum millage levies were limited for fiscal year 2008 due to House Bill 1B, signed into law during Special Legislative Session. The City reduced its levy further than what was required. Current tax collections for the year ended September 30, 2007 were approximately 99.5% of the total tax levy, net of discounts allowed.

Property taxes based on assessed values at January 1 are levied on November 1 of each year. A four percent discount is allowed if the taxes are paid in November, with the discount declining by one percentage point each month thereafter. Taxes become delinquent on April 1 of each year and tax certificates for the full amount of any unpaid taxes and assessments are auctioned beginning June 1 of each year.

Property tax revenue is recorded when it becomes available. Available means due and collectible within the current period or soon enough thereafter to be used to pay liabilities

of the current period. No accrual for the property tax levy becoming due in November 2007 is included in the financial statements since such taxes are collected to finance expenditures of the subsequent period.

The City Commission establishes the tax levy of the City. The adoption of the final millage rate occurred September 25, 2006. Under Florida law, the assessment of all properties and the collection of all county, municipal, special district and school board property taxes are provided by Broward County's Property Appraiser and Tax Collector, who are elected County officials.

The property tax calendar for revenues billed and received for the fiscal year ended September 30, 2007 is shown as follows:

Lien date
Levy date, tax bills mailed
Last date for 4% discount on taxes paid
Last date for 3% discount on taxes paid
Last date for 2% discount on taxes paid
Last date for 1% discount on taxes paid
Final due date of payment of taxes
First date for auctioning tax certificates
on delinquent accounts

June 1, 2007

#### V. Other Information

#### A. Risk management

The City is exposed to various risks of loss related to torts, theft of, damage to or destruction of assets, errors and omissions, injuries to employees and natural disasters. During the 1994-1995 fiscal year, the City established a Workers' Compensation fund (an internal service fund) to account for and finance its uninsured risks of loss. Under this program, the Workers' Compensation fund self-insures losses up to \$250,000 per occurrence. The City purchases excess insurance through the Florida Municipal Insurance Trust, an intergovernmental pool, for claims in excess of coverage provided by the fund. The City also participates in intergovernmental pooling or carries commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

All departments of the City participate in the program and make payments to the fund based on actuarial estimates of the amounts needed to pay prior and current year claims (including allocated loss adjustment expenses). The claims liability of \$4,006,294, which is discounted at 4%, is reported in the fund at September 30, 2007 and is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the claim can be reasonably estimated.

The following schedule presents the changes in aggregate claims liability (in thousands) for the past two years:

|   | Year ended | Year ended |
|---|------------|------------|
|   | 9/30/06    | 9/30/07    |
| Unpaid claims, beginning of fiscal year | \$ 3,503   | \$ 3,794   |
| Incurred claims (and estimate changes)  | 1,020      | 212        |
| Claim payments                          | (729)      |            |
|   |            |            |
| Unpaid claims, end of fiscal year       | \$ 3,794   | \$ 4,006   |

#### **B.** Contingent liabilities

Amounts received or receivable from grant agencies are subject to audits and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

In accordance with various utility purchase agreements, the utility system has potential future liabilities (ERC's) resulting from the growth of purchased utility systems and the corresponding service areas. This additional liability, if any, is computed and settled annually. No liability was incurred for this fiscal year.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

#### C. Employee retirement systems and pension plans

**Plan descriptions:** The City of Sunrise contributes to three single-employer defined benefit pension plans: General Employees' Pension Plan, Police Officers' Pension Plan and Firefighters' Pension Plan and one defined contribution plan: Governmental Money Purchase Plan and Trust.

In addition to normal retirement benefits, all three of the defined benefit pension plans provide for long-term disability and survivor benefits, as well as deferred pensions for former employees, dependent upon length of service or years of contributions and age upon death or disability. State Statute 112 and City ordinance provide the authority to establish and amend benefit provisions for all three defined benefit pension plans.

A deferred retirement option plan (DROP) was implemented in the Police Officers' Pension Plan (the Plan). Upon participation in the DROP, the participant becomes a retiree for all Plan purposes and any further benefits under the pension plan cease to accrue. Normal retirement payments that would have been payable to the participant as a result of

retirement are accumulated and invested in the DROP to be distributed to the participant upon termination of employment. Effective July 10, 2007, an eligible member who elects to participate in the DROP within five years following the member's earliest normal retirement date may participate in the DROP for a maximum of six years. There were nine members in the DROP as of September 30, 2007. Members of the plan who terminate employment and begin receiving normal retirement benefits subsequent to December 31, 2005 will receive a 2% cost of living adjustment. The Plan provides for supplemental pension distributions based on the cumulative net actuarial gain as identified in the most recent actuarial report for eligible participants who have retired prior to December 13, 2004. Any participant immediately eligible for early or normal retirement benefits or enters the DROP between August 14, 2001 and December 12, 2004 is eligible for a 13<sup>th</sup> check, the amount of which cannot exceed 100% of a participant's monthly retirement benefit. In the event that the cumulative net actuarial gain exceeds the amount distributed by the 13<sup>th</sup> check and the City's required contributions to the Plan, a 14<sup>th</sup> check will be distributed to eligible participants – those eligible for a 13th check, except for DROP participants.

City Ordinance 124-X-02-B, approved March 12, 2002, established a retirement incentive program for firefighters. During a "window period" of thirty calendar days, beginning February 27, 2002, eligible firefighters could have made an irrevocable election to participate in this program. The eligible firefighters must have retired and separated from City employment no later than April 15, 2002. Eligible firefighters who elected the Program could have also elected to participate in a DROP for up to thirty-six months or, alternatively, elect a BAC-DROP option for up to eighteen months. Beginning four years after retirement or entry into the DROP, a 2% annual increase in retirement benefits is applicable for all members. As of January 1, 2004, eligible firefighters can now participate in the DROP for a maximum period of sixty months. As of September 30, 2007, sixteen firefighters were participating in this program.

Effective September 13, 1999, the General Employees' Pension Plan distinguished between general employees, management and senior management. DROP was implemented for management and senior management effective June 12, 2001 and for general employees effective January 1, 2004. Participation in the DROP is limited to a maximum 60 months prior to termination of employment, except senior management who are limited to a maximum 72 months. As of September 30, 2007, there were sixty-one participants in the DROP. Beginning one year after retirement or entry into the DROP, an annual increase in retirement benefits of 2% for management members and 2.5% for senior management who reach early or normal retirement age and begin receiving benefits after June 12, 2001, is applicable. For eligible general employees, a supplemental pension distribution in the form of an optional 13<sup>th</sup> check, based on the cumulative net actuarial gain is available; effective January 1, 2004, a minimum of one-half of the 13<sup>th</sup> check is guaranteed payable, notwithstanding actuarial gains.

The Governmental Money Purchase Plan and Trust (Purchase Plan) was established for senior managers who are members of the General Employees' Pension Plan. The Purchase Plan was subsequently amended on March 12, 2003 by Ordinance 715-X-03-A, to additionally include all management employees with more than 10 years of City service and city commissioners. The City contributes 3% of earnings each plan year (calendar

year) on behalf of each eligible management employee, 6% of earnings each plan year on behalf of each senior management employee and each city commissioner and 12% of earnings each plan year on behalf of the city manager and city attorney; the eligible employees are not required to make contributions. The ICMA Retirement Corporation serves as administrator for this Purchase Plan. The City recognized expenditures/expenses of \$229,325 for the fiscal year ended September 30, 2007 for the fifty-eight employees covered under the plan. The Purchase Plan was amended on June 5, 2001 to include all City employees, at no cost to the City. City ordinance provides the authority to establish and amend benefit provisions and contribution requirements for the Governmental Money Purchase Plan and Trust.

All three defined benefit pension plans are included as part of the City's reporting entity as pension trust funds. Copies of separately issued financial reports that include financial statements and required supplementary information for each plan is available at the following locations:

The remaining pension plan note reflects pension information for the City's three single-employer defined benefit pension plans.

Funding policy and annual pension cost: The contribution requirements of plan members and the City are established and may be amended by City Ordinance. Plan member contributions are recognized in the period in which the contributions are due. The City contributes an actuarially determined amount to fully fund benefits for active members. Any unfunded actuarial liability is amortized as a level percent of projected member payroll over a period of thirty years for the Police Officers' and Firefighters' Pension Plans. The General Employees' Pension Plan amortizes its unfunded actuarial liability as a level dollar over a period of thirty years. City contributions to the plans, as calculated by the plans' actuaries, are recognized as revenue when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are

recognized when due and payable in accordance with the terms of the plans. If the City's calculated contribution exceeds 19.2% for the Firefighters' Pension Plan, the employees and the City are each required to fund 50% of the excess over the 19.2% amount. If the City's calculated contribution, excluding the cost of post September 13, 1999 management and senior management benefits, exceeds 14% for the General Employees' Pension Plan, member contributions, as well as the City contribution, are increased by half of the excess percentage of payroll. The following schedule summarizes the required contribution rates for the City and its plan members:

|                               |    | General      |    | Police               |                      |
|-------------------------------|----|--------------|----|----------------------|----------------------|

<sup>1</sup>The Police Officers' and Firefighters' Pension Plans are partially funded by contributions from the State of Florida under Chapters 185 and 175, respectively, of the Florida Statutes. This contribution consists of excise taxes collected on fire and casualty insurance premiums on policies written within the City.

The City has traditionally contributed the annual required contribution (ARC) and thus has never had, or had need to report, a net pension obligation (NPO).

The annual required contributions for the current year were determined as part of the October 1, 2005 actuarial valuation for the Firefighters', General Employees', and Police Officers' Pension Plans. Additional information as of the latest actuarial valuation date of October 1, 2006 for the Firefighters', General Employees', and Police Officers' Pension Plans follows.

#### D. Other post-employment benefits

Effective September 28, 1999, under Ordinance No. 715-X-99-A, the City established a preservation of benefits plan as a deferred compensation plan for managers and senior managers who are members of the General Employees' Pension Plan. This plan, which is

administered by the City, was established as a qualified governmental excess benefits arrangement pursuant to section 415(m) of the U. S. Internal Revenue Code. For each eligible payee, the City will provide a supplemental retirement benefit equal to the reduction of retirement benefits due to the application of section 401(a)(17) or section 415(b) of the U. S. Internal Revenue Code. Benefits are financed on a "pay-as-you-go basis". The City incurred expenditures of \$113,865 for its three eligible payees covered during the fiscal year ended September 30, 2007.

The City, under Ordinance No. 715-X-98-C and amended by Ordinance No. 715-X-00-C and Ordinance No. 715-X-03-A, established a retiree health insurance subsidy of \$200 per month for all general executive management and supervisory/professional employees who retired after September 28, 1999, except that senior managers who retired directly from the City after January 1, 2001, receive an amount equivalent to 80% of the total cost of family coverage under the City's health insurance program. Effective October 1, 1999, the City agreed to establish a health insurance subsidy of \$200 per month for all general employees, per the Collective Bargaining Agreement between the City and the Federation of Public Employees. The subsidy commenced at the same time the General Employees' Retirement Plan member began to receive normal or early retirement benefits and continues until the plan member reaches age 65. Upon attaining age 65, bargaining unit employees will receive 75% of the \$200 per month subsidy, except that senior managers will receive 75% of the benefit received immediately prior to attaining age 65. If a general executive management or supervisory/professional employee dies before age 65, the health insurance subsidy continues to be paid to that member's spouse until the date that member would have reached age 65. Effective October 1, 2006, eligible general employees who retire and separate employment will be paid a monthly subsidy of \$250, which shall continue for the life of the retiree. Benefits are financed on a "pay-as-you-go basis". The City recognized expenditures of \$196,253 for the seventy participants covered during the fiscal year ended September 30, 2007.

Effective March 12, 2003, the City, under Ordinance No. 715-X-98-A and amended by Ordinance No. 715-X-03-A, provided all management and senior management employees who separate from the City after age 50 with at least ten years of City service and city commissioners elected to at least two terms of office who are no longer serving the City and attain age 50 with life insurance in the amount being funded by the City at the time of separation from service until the individual attains the age of 66. Funding for this benefit is on a "pay-as-you-go basis". The City incurred expenditures of \$6,528 for sixteen eligible individuals covered during the fiscal year ended September 30, 2007.

Effective May 27, 2003, the City, under Ordinance No. 715-X-98-A and amended by Ordinance No. 715-X-03-B, provided a long-term care benefit of \$4,500 per month with inflation guard to executive management and supervisory/professional employees with at least ten years of continuous City service in management or city commissioners elected to at least two terms of office and \$6,000 per month with inflation guard to senior managers and their eligible spouses. The City will continue to provide long-term care insurance to an eligible spouse of a senior management employee who is married to the employee at the time of the employee's separation from the City and who was receiving long-term care insurance if the employee dies, regardless of the age of the employee at the time of death, provided the employee and spouse are still married. Benefits are financed on a "pay-as-

you-go basis". The City recognized expenditures of \$17,326 for eight eligible individuals covered during the fiscal year ended September 30, 2007.

The City anticipates revisiting its funding strategy when it implements GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, for fiscal year ending September 30, 2008.

#### E. Subsequent events

#### **Local Government Surplus Trust Fund Investment Pool**

As discussed in Note IV, at September 30, 2007, the City had \$274,796,685 invested in the State Board of Administration's Local Government Surplus Funds Trust Fund Investment Pool (Pool). On November 29, 2007, the State Board of Administration implemented a temporary freeze on the assets held in the Pool due to an unprecedented amount of withdrawals from the Fund coupled with the absence of market liquidity for certain securities within the Pool. The significant amount of withdrawals followed reports that the Pool held asset-backed commercial paper that was subject to sub prime mortgage risk. On December 4, 2007, based on recommendations from BlackRock, an independent investment advisor, the State Board of Administration restructured the Pool into two separate pools. Pool A consisted of top-tier money market assets of the highest quality, while Pool B contained assets that either defaulted on a payment, paid more slowly than expected, or had significant credit or liquidity risk. Pool A represented about 86%, or approximately \$12 billion, of the pool assets and Pool B was approximately \$2 billion (or 14% of the pool assets). On December 21, 2007, Standard and Poor's Ratings Services assigned its "AAAm" principal stability fund rating to Pool A. At the time of the restructuring, all current pool participants had their existing balances proportionately allocated into Pool A and Pool B.

Currently, Pool A participants may withdraw 37% of their balance or \$4 million, whichever is greater, without penalty. Withdrawals from Pool A in excess of the above limit are subject to a 2% redemption fee. New investments in Pool A are not subject to the redemption fee or withdrawal restrictions. Future withdrawal provisions from Pool A will be subject to further evaluation based on the maturities of existing investments and the liquidity requirements of the Pool.

Currently, Pool B participants are prohibited from withdrawing any amount from the Pool and a formal withdrawal policy has not yet been developed. However, cash holdings are being distributed to participants as they become available from maturities, sales, interest and principal payments as a transfer from Pool B to Pool A participant accounts in proportion to original adjusted Pool B balances. To date, approximately \$570 million has been transferred from Pool B to Pool A, and this is not subject to withdrawal restrictions. The most current holdings report, dated February 18, 2008, indicates an approximate \$1.5 billion par value on Pool B assets. Market valuations of the assets held in Pool B are not readily available. In addition, full realization of the principle value of Pool B assets is not readily determinable.

As of the January 31, 2008 pool statements, the City had \$233,909,360 and \$38,199,326 invested in Pool A and B, respectively. Since that time, a transfer from Pool B to Pool A was effected on February 8, 2008, which transferred approximately \$11 million. Additional information regarding the Local Government Surplus Funds Trust Fund may be obtained from the State Board of Administration.

#### **Property Tax Amendment**

On January 29, 2008, the Florida electorate approved an amendment to the Florida Constitution relative to property taxation. This amendment (referred to as Amendment 1) was placed on the ballot by the Florida Legislature at a special session held during 2007. With respect to homesteaded property, Amendment 1 increases the current \$25,000 homestead exemption by an additional \$25,000 (for property values between \$50,000 - \$75,000), except for school district taxes. Since the new \$25,000 homestead exemption does not apply to school district taxes, this effectively amounts to a \$15,000 increase to the existing homestead exemption, resulting in an estimated annual savings of \$240 for the average homeowner. Amendment 1 also allows property owners to transfer (make portable) up to \$500,000 of their Save Our Homes benefits to their next homestead when they move. Save Our Homes became effective in 1995 and limits (caps) the annual increase in assessed value for homesteaded property to three percent (3%) or the percentage change in the Consumer Price Index, whichever is less.

With respect to non-homesteaded property (businesses, industrial property, rental property, second homes, etc.), Amendment 1 limits (caps) the annual increase in assessed value to ten percent (10%), except for school district taxes. The Amendment also provides a \$25,000 exemption for tangible personal property.

Amendment 1 becomes effective on October 1, 2008, with the exception of the ten percent (10%) assessment cap on non-homesteaded property, which becomes effective on January 1, 2009.

Based on information received from the Broward County Property Appraiser's Office, the estimated annual loss of property tax revenues for our City from the additional homestead exemption and the \$25,000 exemption for tangible personal property is approximately \$2.4 million. At present, there is no accurate way to determine the impact of the portability and assessment cap on non-homesteaded property in terms of potential loss of property tax revenues.

#### **Future Pronouncements**

Effective October 1, 2007, the City will implement GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, GASB Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues, and GASB Statement No. 50, Pension Disclosures – an amendment of GASB Statements No. 25 and No. 27.

#### Nonmajor Proprietary Funds

#### Enterprise Funds

Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. When debt is backed solely by fees and charges or there is a legal requirement or policy decision to recover costs, an enterprise fund must be used.

Recycling Fund Accounts for the provision of recycling services to City

residents.

Stormwater Fund Accounts for the operations of a City stormwater utility.

Golf Course Fund Accounts for the operations of a City owned golf course.

#### Fiduciary Funds

#### Pension Trust Funds

Pension trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans.

General Employees', Police Officers' and Firefighters' Pension Trust Funds

Account for the accumulation of resources to be used for retirement benefit payments to City employees.

| Total direct and overlapping debt |    |                     |  | \$   | 171,466,575 |  |

Sources: Assessed value data used to estimate applicable percentages provided by Broward County. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

<sup>\*</sup>For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using gross taxable property values after Value Adjustment Board changes. Applicable percentages were estimated by dividing the City's gross taxable property values after Value Adjustment Board changes by the County's gross taxable property values after Value Adjustment Board changes.

Note: Details regarding the government's outstanding debt can be found in the notes to the financial statements.

Gross revenues of the Utility System exclude certain investment income that is not pledged. Operating expenses do not include depreciation or amortization.

<sup>&</sup>lt;sup>a</sup>Public Improvement revenue bonds are collateralized by a lien on and pledge of electric franchise fees.

<sup>&</sup>lt;sup>b</sup>Public Facilities revenue bonds are collateralized by a lien on and pledge of a tax upon purchases within the City of electricity, metered and bottled gas, water service and telegraph and telecommunications service.

<sup>&</sup>lt;sup>c</sup>Ad valorem tax bonds are collateralized by voted debt service ad valorem taxes levied upon all taxable property within the Special Tax District No. 1.

# Section IV City of Sunrise, Florida Compliance Audit Section

# Report of Independent Certified Public Accountants on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements <u>Performed in Accordance with Government Auditing Standards</u>

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida

We have audited the financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of the City of Sunrise, Florida (the City), as of and for the year ended September 30, 2007, which collectively comprise the City's basic financial statements, and have issued our report thereon dated February 22, 2008. Our report was modified to include a reference to the reports of other auditors as it relates to the Pension Trust Funds. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Pension Trust Funds as described in our report on the City's financial statements. The financial statements of the Pension Trust Funds were not audited in accordance with *Government Auditing Standards*.

#### Internal Control over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida Page Two

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Sunrise's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other maters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Mayor, City Commission, management and regulatory agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# Report of Independent Certified Public Accountants on Compliance and on Internal Control over Compliance Applicable to Each Major Federal Awards Program and State Financial Assistance Projects

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida

#### Compliance

We have audited the compliance of the City of Sunrise, Florida (the City) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement, and the requirements described in the Executive Office of the Governor's State Projects Compliance Supplement, that are applicable to each of its major federal awards programs and state financial assistance projects for the fiscal year ended September 30, 2007. The City's major federal awards programs and state financial assistance projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs and state financial assistance projects is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and Chapter 10.550, Rules of the Auditor General. Those standards, OMB Circular A-133, and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program or a state project occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material aspects, with the requirements referred to above that are applicable to each of its major federal programs and its state financial assistance projects for the fiscal year ended September 30, 2007.

FORT LAUDERDALE . WEST PALM BEACH

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida Page Two

#### Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs and state financial assistance projects. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on major federal programs and state financial assistance projects in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program or state financial assistance project on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program or state financial assistance project such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program or state financial assistance project that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program or state financial assistance project will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Mayor, City Commission, management, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Fort Lauderdale, Florida February 22, 2008

# NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE PROJECTS

YEAR ENDED SEPTEMBER 30, 2007

#### NOTE 1. GENERAL

The accompanying schedule of expenditures of federal awards and state financial assistance projects (the Schedule) presents the activities of all federal programs and state projects of the City of Sunrise, Florida (the City) for the year ended September 30, 2007. The City's reporting entity is described in Note 1 of the financial statements. All federal awards and state financial assistance received directly or from pass-through entities from federal and state agencies are included in the Schedule.

#### NOTE 2. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards and state financial assistance projects of the City of Sunrise is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and Chapter 10.550, Rules of the Auditor General. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

# Section V City of Sunrise, Florida Management Letter

#### Management Letter in Accordance with the Rules of the Auditor General of the State of Florida

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida

We have audited the basic financial statements of the City of Sunrise, Florida (the City) as of and for the year ended September 30, 2007, and have issued our report thereon dated February 22, 2008, which was modified to refer to the report of other auditors with regards to the Pension Trust Funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The financial statements of the Pension Trust funds were not audited in accordance with *Government Auditing Standards*. We have issued our Independent Auditor's Report on Compliance and Internal Control over Financial Reporting. Disclosures in that report, which is dated February 22, 2008, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with the provisions of Chapter 10.550, Rules of the Auditor General, which govern the conduct of local governmental entity audits performed in the State of Florida and, unless otherwise required to be reported in the report on compliance and internal controls or schedule of findings and questioned costs, this letter is required to include the following information.

- > Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report. There were no previous year findings or recommendations.
- > Section 10.554(1)(i)2., Rules of the Auditor General, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the City complied with Section 218.415, Florida Statutes.
- > Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management, accounting procedures, and internal controls. In connection with our audit, we did not have any such recommendations.
- > Section 10.554(1(i)4., Rules of the Auditor General, requires that we address violations of provisions of contracts and grant agreements or abuse that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- > Section 10.554(1)(i)5., Rules of the Auditor General, requires based on professional judgment, the reporting of the following matters that are inconsequential to the financial statements, considering both quantitative and qualitative factors: (1) violations of laws, rules, regulations, and contractual provisions or abuse that have occurred, or were likely to have occurred, and would have an

Honorable Mayor, City Commission and City Manager City of Sunrise, Florida Page Two

immaterial effect on the financial statements; (2) improper expenditures or illegal acts that would have an immaterial effect on the financial statements; and (3) control deficiencies that are not significant deficiencies, including, but not limited to; (a) improper or inadequate accounting procedures (e.g., the omission of required disclosures from the financial statements); (b) failures to properly record financial transactions; and (c) other inaccuracies, shortages, defalcations, and instances of fraud discovered by, or that come to the attention of, the auditor. In connection with our audit, we did not have any such findings.

- > Section 10.554(1)(i)6., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Sunrise was established under Chapter 61-2902 in 1961. The City has three blended component units (Special Recreation District Phase I, Special Recreation District Phase II and Special Tax District No. 1).
- ➤ Section 10.554(1)(i)7.a., Rules of the Auditor General, requires a statement be included as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- ➤ Section 10.554(1)(i)7.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the City for the fiscal year ended September 30, 2007, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2007. In connection with our audit, we determined that these two reports were in agreement.
- ➤ Section 10.554(1)(i)7.c. and 10.556(7), Rules of the Auditor General, require that we apply financial condition assessment procedures. In connection with our audit, we applied financial condition assessment procedures. It is management's responsibility to monitor the entity's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

This management letter is intended solely for the information of the Mayor, City Commission, management, and the State of Florida Office of the Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

Fort Lauderdale, Florida February 22, 2008
