# Sunrise Sustainability Action Plan

A "Sustainable City" is one that builds economic, environmental, and social prosperity while ensuring it has essential resources for future generations. To be sustainable, Sunrise must develop and implement policies that help govern City operations and inform the community at large.

For the past year, the City of Sunrise has been collaborating on a Sustainability Action Plan to help guide its strategy. Focus areas include:

- Resource Management
- Sustainability
- Vulnerability

Within each focus area, there are individual analyses that provide a baseline – illustrating Sunrise's current position. Recommendations are also provided to help set goals that may enhance sustainability communitywide.

The Sunrise Sustainability Action Plan is available for public review and comment through Thursday, October 4. Visit [www.sunrisefl.gov/SAP](http://www.sunrisefl.gov/SAP) to view the Plan's findings and suggested goals – and be sure to share your feedback!
