

# Neighborhood Traffic Calming Program (NTCP)

Update to the City of Sunrise  
City Commission

April 26, 2022

Prepared By:  
Utilities Department

# Update Objectives

- Neighborhood Traffic Calming Program Overview
- Completed Projects
- Projects in Design
- Applications Pending Commission Approval

# Neighborhood Traffic Calming Program Overview

# NTCP Review

APPENDIX "II"  
NEIGHBORHOOD TRAFFIC CALMING PROGRAM APPLICATION

Describe the traffic or safety issues. Include the time of day when the problem occurs, possible causes of the problem, and concerns relating to pedestrians, bicyclists, residents and property as a result of the problem. Attach an additional page, if necessary.

If there is no active Association, the Application must include the signatures of at least ten (10) affected residents representing separate households. This requirement is intended to show that the issue is perceived neighborhood-wide and not solely an individual concern. Residents acknowledge that by signing the petition they accept the possibility that traffic calming measures may be built in front of their home.

Resident Name	Address	Signature	Telephone

## Application Phase

- Traffic Calming Request
- Data Collection and Analysis
- City Commission Review

## Design Phase

- Conceptual Plan
- Community Support
- Final Approval

## Construction Phase

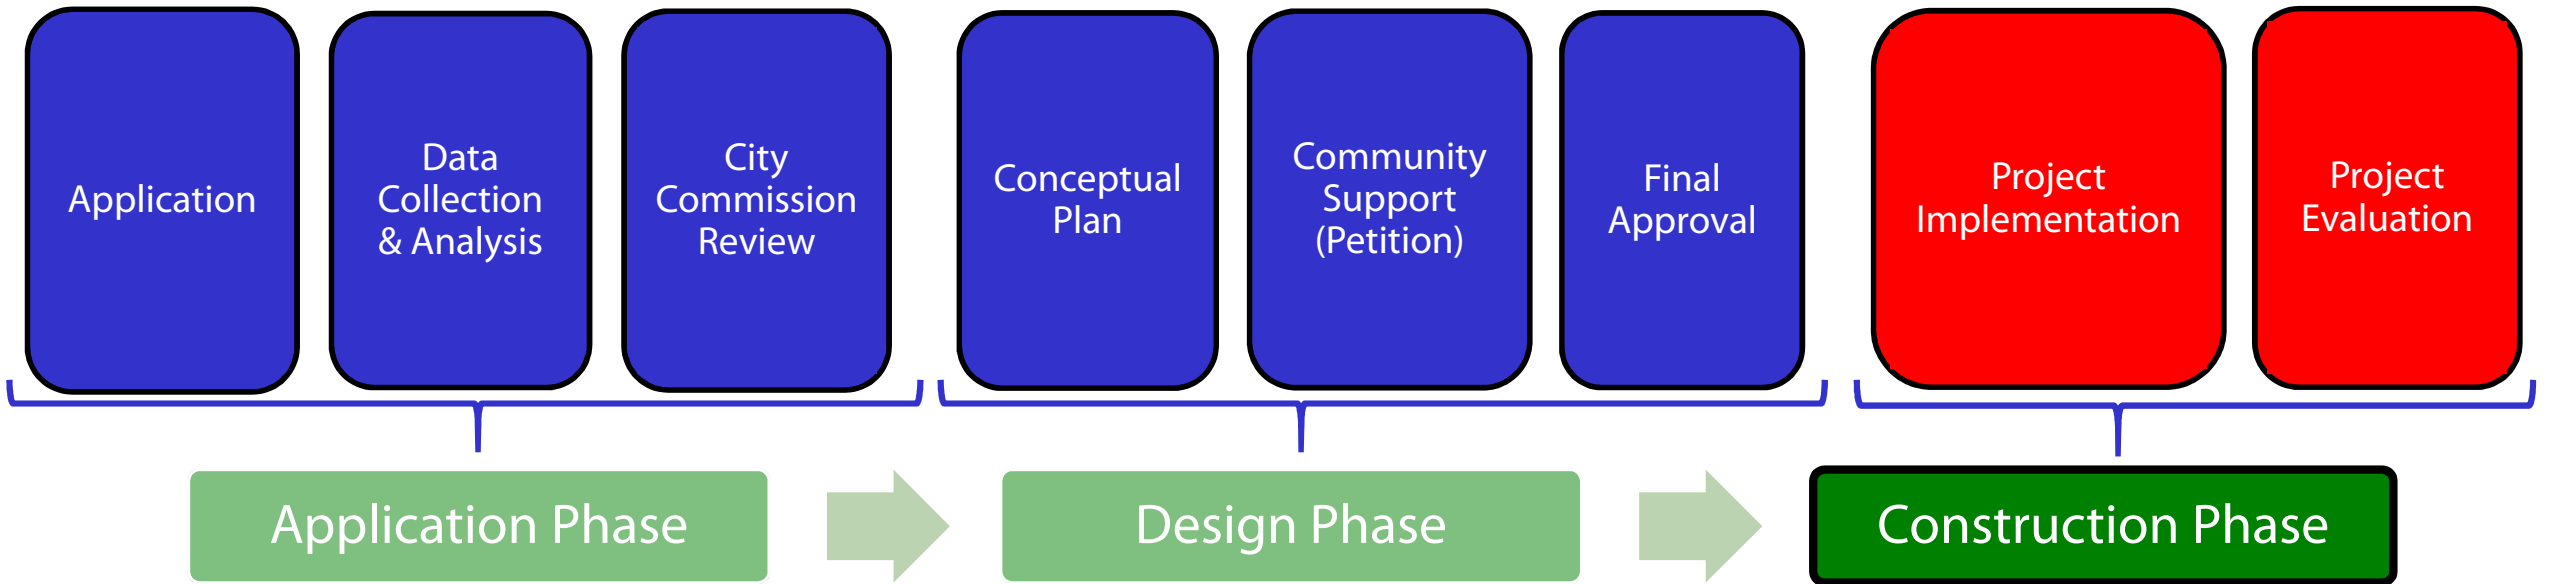

- Project Implementation
- Evaluation After Installation

# NTCP Data Collection Update

- Broward County Traffic Engineering Division (BCTED) has, as a courtesy, completed the data collection for cities
- BCTED has temporarily suspended data collection for all cities
- Data collection is a significant step that determines an application's eligibility
- To continue the program, Staff has utilized an existing traffic consulting contract to complete data collection
