## April is Safe Digging Month

If you're planning an outdoor project that requires digging—like planting a tree or installing a fence—it's important that you know what's below!

Residents and contractors are reminded to **call 811 or visit [sunshine811.com](http://sunshine811.com) before digging** to avoid damaging any underground utility lines.

The notification process is fast, easy and FREE:

1. Contact Sunshine 811, Florida's 811 center, at least three business days before you dig: call 811 or visit [sunshine811.com](http://sunshine811.com).
2. Sunshine 811 shares your project location with utility companies.
3. Utility representatives visit the site and mark the approximate locations of underground lines with flags or spray paint.
4. Once all affected utility companies have responded (within two business days), you can dig—maintaining 18" to 24" of space on all sides of the utility marks.

Thank you for following these important safe-digging practices!
