# Executive Summary

## AP-05 Executive Summary - 91.200(c), 91.220(b)

### 1. Introduction

Anticipated resources for the PY 2024 funding year include \$633,614 in Community Development Block Grant (CDBG) funds.

In addition to CDBG, the City anticipates receiving State Housing Initiative Partnership (SHIP) funds and Home Investment Partnership (HOME) funds through Broward County Consortium. SHIP funds are explained in the additional resource narrative below in this section.

### 2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

#### Overview

The City's Consolidated Strategic Plan for fiscal years 2020 – 2024 identified affordable housing preservation and development, improvements to public infrastructure/facilities, public services, economic development and emergency preparedness as the highest priority needs amongst low- and moderate-income residents. Please see summary of these needs and associated goals below.

The PY 2024 Annual Action Plan employs multiple strategies to target the social, economic and housing needs of these target populations.

#### Priority Need: Affordable Housing Preservation & Development

Goal: 1A. Owner Occupied Housing Rehabilitation

- The City will work towards preserving and developing affordable housing through residential rehabilitation for LMI households. The City will focus its attention on these needs through the following strategies: providing rehabilitation assistance to qualified homeowners; stabilizing housing units that are vacant or in some stage of foreclosure through acquisition, rehabilitation and resale; increasing homeownership opportunities through the resale of rehabilitated units.

Goal: 1C. Acquisition for Affordable Housing Dev

- The City will provide for acquisition of property and vacant land to be rehabilitated for the purpose of affordable housing development for LMI households.

**Priority Need: Improvements to Public Infrastructure/Facilities**

Goal: 2A. Public Infrastructure Improvements

- The City will work towards quality of life improvements through the development or redevelopment of public infrastructure in LMI areas. Improvements to infrastructure may include, but are not limited, to streets and roads, sidewalks, public art, ADA modifications and water systems.

Goal: 2B. Public Parks and Facilities Improvements

- The City will work towards quality of life improvements through the development or redevelopment of public facilities that target LMI areas. Improvements to public facilities may include, but are not limited to, neighborhood and community centers, recreational facilities and public parks.

**Priority Need: Public Services**

Goal: 3A. Public Services

- This goal will provide for supportive services for LMI citizens and special needs groups and may include services to address homelessness, persons with physical and mental health, seniors, and youth. Specific activities include the Senior Transportation program, aftercare programs for LMI, and emergency subsidy payments etc.

**Priority Need: Emergency Preparedness**

Goal: 5A. Hurricane

- Due to the impact of major storms and hurricanes, that may result in extensive damages to property and life within Sunrise the City has made disaster readiness and response programs a high priority.

**3. Evaluation of past performance**

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The City of Sunrise, with other public, private and non-profit community housing providers and non-housing service agencies have made significant contributions to provide safe, decent and affordable housing, a suitable living environment especially for low- to moderate-income and special needs groups in the community. Affordable housing and vital services to special needs groups remain some of the most prolific needs facing the City, as documented by the current Consolidated Plan, the City's previous Consolidated Plan, and the Consolidated Annual Performance and Evaluation Reports (CAPER). The below accomplishments have been derived from the PY 2022 CAPER.

**Priority Need: Affordable Housing Preservation & Development**

Goal: 1A. Owner Occupied Housing Rehabilitation

**CDBG**

- 7 income eligible households were assisted with CDBG funded Residential Rehabilitation
- 17 income eligible households were encumbered to receive assistance with CDBG funded Residential Rehabilitation

**SHIP**

- 5 income eligible households were assisted with CDBG funded Residential Rehabilitation
- 9 income eligible households were encumbered to receive assistance with CDBG funded Residential Rehabilitation

**Priority Need: Public Services**

Goal: 3A. Public Services

**CDBG**

- 1,187 senior residents were assisted with transportation to medical facilities and governmental centers

Several additional measures have been taken during PY 2023 related to the City's Owner-Occupied Residential Rehabilitation program:

- The Contractors pool was expanded to ensure the most efficient procurement for upcoming projects along with providing the least amount of exposure to program participants. Contractors have been assessed for financial stability, experience with state and federally funded residential rehabilitation projects, and insurance requirements.
- Having exhausted the waiting list, the Owner-Occupied Residential Rehabilitation program was reopened to the public for the first time since 2017. Two application cycles were completed during PY2023.
- A consulting firm was contracted to assist the Grants Division in expediting the disbursement of current and future year grant funding. This assistance shall include but not

be limited to, review of applicant income eligibility, environmental review records, and technical assistance

- The City has expanded the Owner-Occupied Residential Rehabilitation strategy to a maximum project limit of \$80,000.

#### **4. Summary of Citizen Participation Process and consultation process**

Summary from citizen participation section of plan.

The City of Sunrise encourages citizen participation and actively encourages citizens, particularly low- and moderate-income households and those with special needs, to participate in the planning and development of the Consolidated Plan and the Annual Action Plan (AAP). Consistent with federal regulations, the City of Sunrise works to ensure community stakeholders and citizens have adequate opportunities to participate in this planning process.

The City of Sunrise adopted a Citizen Participation Plan (CPP) on May 25, 2021 as part of the PY 2020-2024 Consolidated Plan. The purpose of the Citizen Participation Plan is to provide opportunities for citizen involvement in the process of developing and implementing the Community Development Block Grant (CDBG) Program. This plan has been developed in compliance with 24 CFR 91.105, and outlines when, where, and how citizens can access information, review and comment on major community plans and comment on progress of funded activities under the CDBG program. The City's current Citizen Participation plan is available on the City's website at <https://www.sunrisefl.gov/departments-services/finance-administrative-services/grants/plans-and-reports>.

In addition, the City held a Grants Overview commission workshop on May 4, 2022 to review the City's entitlement and competitive grant programs. This workshop was open to the public and published on the City's commission agenda calendar.

Please refer to AP-12 Citizen Participation for more detailed information on the City's citizen participation efforts.

#### **5. Summary of public comments**

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

No public comments have been received to date. Please refer to AP-12 Participation for more detailed information on the City's citizen participation efforts.

#### **6. Summary of comments or views not accepted and the reasons for not accepting them**

No public comments have been received to date.

## **7. Summary**

Through the following data sources, the City was able to make a complete assessment of the needs of the community:

- 2013-2017 American Community Survey (ACS) 5-Year Estimates
- 2014-2018 American Community Survey (ACS) 5-Year Estimates
- Bureau of Labor Statistics
- Longitudinal Employer-Household Dynamics (LEHD) data

## **AP-10 Consultation - 91.100, 91.200(b), 91.215(l)**

### **1. Introduction**

Below is a summary of the consultation efforts undertaken as a part of the City's 2020-2024 Consolidated Strategic Planning process. City consultation efforts included input from the Florida Housing Finance Corporation, Broward County, various local non-profit direct service providers, neighboring municipalities and private citizens.

**Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).**

Institutional coordination of the Consolidated Plan establishes a unified vision for use of community development funds and related resources. The City uses a collaborative process to shape various programs into effective, coordinated strategies. This process also facilitates the opportunity for planning and citizen participation to take place in a comprehensive context, attempting to reduce duplication of effort at the local level.

The City will execute the fifth-year Annual Action Plan in harmony with public, private and nonprofit agencies. Nonprofit agencies may include, but are not limited to, service providers and community housing development organizations. Private sector partners may include, but are not limited to, local financial institutions and developers. The City works closely with its partners to design programs that address identified needs.

Table 2, located in the subsequent section, outlines the types of agencies and organizations consulted throughout the program year and during the development of the City of Sunrise Consolidated Plan and Annual Action Plan. Organizations consulted included the Broward County Housing Authority, Broward County HOME Consortium, Broward County Housing Initiatives Partnership, and other local agencies and organizations.

In preparation of Table 2, the City conducted phone calls and researched the internet for the agencies. As stated above, the City often relies on the Broward County Housing Finance and Community Development Division to assist in fostering these relationships with public and assisted housing providers and other public service organizations. As part of the City's outreach efforts, a survey was distributed to the Affordable Housing Advisory Board which represents stakeholders in various industries including financial institutions, developers, local businesses and non-profit agencies.

**Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

The City of Sunrise does not receive or administer an Emergency Shelter Grant (ESG). Consultation with the Broward County Housing Initiative Partnership (HIP), the local Continuum of Care (CoC) lead agency, included stakeholder meetings with the Broward County HOME Consortium at which HIP was in attendance. The HIP is responsible for the operation and administration of the Broward County's Homeless Management Information System (HMIS).

HIP is also responsible for the annual Point-In-Time (PIT) count. The PIT count is a survey taken throughout the County, typically during the last week of January and provides a snapshot of the homeless population "on any given night" in the area. This data will help HIP and the CoC members determine the needs of the homeless population and what services gaps remain.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

The City of Sunrise does not receive or administer an Emergency Shelter Grant (ESG). Consultation with the Broward County Housing Initiative Partnership (HIP), Continuum of Care lead agency included stakeholder meetings with the Broward County HOME Consortium at which HIP was in attendance. The HIP is responsible for the operation and administration of the Broward County's Homeless Management Information System (HMIS).

### **1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting**

The purpose of the citizen participation process is to actively encourage citizens, particularly low- and moderate-income households and those with special needs, to participate in the planning and development of the Consolidated Plan and the first through fifth year Annual Action Plans (AAP). The City of Sunrise works to ensure community stakeholders and citizens have adequate opportunities to participate in this planning process.

The City's efforts to allow for participation in the development of the fifth-year Annual Action Plan include a Public Hearing and a Public Comment Period.

The City's efforts to allow for participation in the development of the 2020-2024 Consolidated Plan and first-year Annual Action Plan included a Public Hearing and a Public Comment Period. As well, the City through the use of online surveys distributed to community stakeholders and the Affordable Housing Advisory Board (AHAB) were used to help determine the utilization of CDBG funds.

A summary of citizen outreach efforts is described in the table below.

## Expected Resources

### AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

#### Introduction

Anticipated resources for the PY 2024 funding year include \$633,614 in Community Development Block Grant (CDBG) funds.

In addition to CDBG, the City anticipates receiving State Housing Initiative Partnership (SHIP) funds and Home Investment Partnership (HOME) funds through Broward County Consortium. SHIP funds are explained in the additional resource narrative below in this section.

Table 4 - Expected Resources – Priority Table

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

Since its establishment as an entitlement City, the City of Sunrise has successfully leveraged CDBG and HOME (from the Broward HOME Consortium) funding with state and local resources to undertake activities that address the City’s priority needs, with an emphasis on creating and maintaining affordable

housing City-wide. During PY 2024, the City will leverage CDBG, HOME and its annual allocation of SHIP funding to meet its highest priority needs, as indicated in the 5-Year Consolidated Plan. As the lead agency of the Broward County HOME Consortium, compliance with HOME leveraging requirements will be fulfilled and reported through Broward County.

The leveraging of resources is vital to meeting the needs of the City's low- and moderate-income residents. Doing so ensures that all applicants are provided comprehensive support. To date, the City has been successful in leveraging CDBG and HOME funds with state-sponsored SHIP funding to increase the total dollars available to its applicants. As such, the City has made a significant impact in the community by achieving its goals and priorities as stated in the Consolidated Plan.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

The City continuously assesses what lots may be suitable for the development of in-fill housing and mixed-use development activities in conjunction with local non-profit agencies and developers. All City-owned inventory has been mapped as part of the State's requirement that the City maintain a printed inventory of locally owned land suitable for affordable housing. The City's Affordable Housing Advisory Board reviews this information annually.

**Table 5 – Goals Summary**

## Goal Descriptions

1	<b>Goal Name</b>	1A. Owner Occupied Housing Rehabilitation
	<b>Goal Description</b>	The City will work towards preserving and developing affordable housing through residential rehabilitation for LMI households. The City will focus its attention on these needs through the following strategies: providing rehabilitation assistance to qualified owners; stabilizing housing units that are vacant or in some stage of foreclosure through acquisition, rehabilitation and resale.
2	<b>Goal Name</b>	3A. Public Services
	<b>Goal Description</b>	This goal will provide for supportive services for LMI citizens and special needs groups and may include services to address homelessness, persons with physical and mental health, seniors, and youth. Specific activities include, but are not limited to, the Senior Transportation program, aftercare programs for LMI, emergency subsidy payments etc.
3	<b>Goal Name</b>	2A. Public Infrastructure Improvements
	<b>Goal Description</b>	The City will work towards quality of life improvements through the development or redevelopment of public infrastructure in LMI areas. Improvements to infrastructure may include, but are not limited, to streets and roads, sidewalks, public art, ADA modifications and water systems.

## AP-35 Projects - 91.420, 91.220(d)

### Introduction

The following outlines those projects and activities which will be funded with the \$633,614 of CDBG resources the City anticipates receiving for the 2024 program year. These projects are based on priority needs outlined in the City's 5-Year Consolidated Strategic Plan.

#	Project Name
1	CDBG: Program Administration
2	CDBG: Residential Rehabilitation
3	CDBG: Public Services
4	CDBG: Public Infrastructure Improvements

Table 6 – Project Information

### Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Affordable housing programs such as Residential Rehabilitation will continue to be a priority for the City as cost burden is by far the largest housing problem in the City of Sunrise. According to the 2014-2018 ACS, 43.9% of homeowners with a mortgage and 58.1% of renters were housing cost burdened. There were 25.5% of homeowners without a mortgage that were also housing cost burdened. This amounts to over 14,200 households that are housing cost burdened.

Senior Transportation is a priority need as it ensures access to medical services and helps to promote self-sufficiency and aging in place.

While, CDBG funding levels are anticipated to continue to increase gradually through the Consolidated Plan cycle, there continues to be a high need for affordable housing in the City as evidenced by the high percentage of cost burdened households. The City also recognizes Senior Transportation as a priority need to ensure the quality of life of elderly residents in Sunrise. In order to create the greatest possible impact for its low- to moderate-income residents, the City will continue to leverage state and federal funding sources to mitigate this need and will continue advocacy for affordable housing on local, state and federal levels.

### **Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed**

Low-Mod Census Tracts and Block Groups

The City of Sunrise also determines project locations using HUD CDBG Low- to Moderate-Income Summary Data (LMISD) which helps to guide the City where low- to moderate-income block group tracts are located. HUD defines a low- to moderate-income area as a block group having 51% or greater low- to moderate-income population. The list below identifies the low-moderate income areas and will be utilized to plan for CDBG activities throughout the City. In addition to the HUD LMISD data, the City determines need and location of special projects based on need and demand of its residents, as well as the condition of existing resources.

The City's low- to moderate income Census block group tracts are: 060117.1, 060117.2, 060117.3, 060120.3, 060203.1, 060203.2, 060203.3, 060206.1, 060206.2, 060207.1, 060207.2, 060208.1, 060208.2, 060208.3, 060209.1, 060211.1, 060211.2, 060213.1, 060213.2, & 070304.1.

## **AP-75 Barriers to affordable housing -91.420, 91.220(j)**

### **Introduction**

Affordable housing remains the highest priority need amongst Sunrise residents. As such, staff and leadership collaborate on an ongoing basis to generate new and innovative ways to meet the needs of the community.

**Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

The City's Affordable Housing Advisory Board reviews a series of affordable housing incentive strategies annually to ensure affordable housing remains a priority.

### **Discussion**

## **AP-85 Other Actions - 91.420, 91.220(k)**

### **Introduction**

The Community Development Block Grant (CDBG) program, established in 1974, is designed to help communities remain viable by providing decent housing, a suitable living environment, and expanded economic opportunities principally for low- to moderate-income (LMI) persons. The City of Sunrise has been an entitlement City for the U.S. Department of Housing and Urban Development's (HUD) CDBG program since 1988.

The City is a municipality within Broward County, which is located in southeast Florida. Sunrise is comprised of 18.10 square miles of land area and 0.22 square miles of water area. As of the 2018 Census data, the Sunrise population is 93,199 and has been growing at a similar rate (9.6%) as Broward County since 2010 (10.1%). The median household income for the study area was \$55,043, compared to the state of Florida with a median of \$53,267, as estimated for 2014-2018 by the Census' American Community Survey (ACS). Sunrise has a minority-majority population: 28% of residents (26,365) are white-non-Hispanic; 34% of residents (31,931) are black, non-Hispanic, including African-Americans and persons of Caribbean descent; 31% of residents (21,621) are Hispanic or Latino.

### **Actions planned to address obstacles to meeting underserved needs**

Affordable housing programs such as Residential Rehabilitation will continue to be a priority for the City as cost burden is by far the largest housing problem in the City of Sunrise. According to the 2014-2018 ACS, 43.9% of homeowners with a mortgage and 58.1% of renters were housing cost burdened. An additional 25.5% of homeowners without a mortgage were also housing cost burdened. This amounts to over 14,200 households that are housing cost burdened.

In order to create the greatest possible impact for its low- to moderate-income residents, the City will continue to leverage state and federal funding sources to mitigate the impact of funding fluctuations. Additionally, the City will continue its dynamic advocacy of affordable housing on local, state and federal levels.

### **Actions planned to foster and maintain affordable housing**

The City will continue to foster and maintain affordable housing through its Owner Occupied Residential Rehabilitation program. In addition, the City will continue to support increased homeownership among LMI residents by using annual HOME allocations received from participation in the Broward County HOME Consortium to support a City-wide Purchase Assistance program. Consistent with past performance, City staff will continue to seek out new and innovative approaches to providing affordable

housing.

### **Actions planned to reduce lead-based paint hazards**

In accordance with federal regulations, all participating property owners are notified of the hazards of lead-based paint and of the symptoms associated with lead-based contamination. Additionally, lead-based paint inspections are performed on all residences constructed prior to 1978. A copy of the Environmental Protection Agency (EPA)'s Protect Your Family from Lead in Your Home pamphlet along with the Lead-Safe Certified Guide to Renovate Right brochure is given to each household prior to construction.

### **Actions planned to reduce the number of poverty-level families**

The City's primary focus remains on the development and maintenance of its affordable housing stock in an effort to ease housing cost burden for low- to moderate-income families City-wide. As such, the majority of City's annual CDBG, HOME (via the Broward County HOME Consortium) and state funded SHIP allocations are targeted towards Residential Rehabilitation and Purchase Assistance programs which directly impact the City's most vulnerable populations. Where City resources are unable to assist, staff continues to coordinate referrals with local public and private entities who are able to provide additional, specialized programs and resources.

### **Actions planned to develop institutional structure**

The Grants Division of the Finance & Administrative Services Department is responsible for the Planning and Administration of the CDBG Consolidated Strategic Plan, Annual Action Plan, Consolidated Annual Performance Evaluation Report (CAPER) and all other federal cross-cutting requirements associated with the CDBG program. Grants Division staff meets with the Affordable Housing Advisory Board on a quarterly basis. In addition, the City remains an active participant in monthly HOME Consortium meetings.

### **Actions planned to enhance coordination between public and private housing and social service agencies**

The City has outlined in its Comprehensive Plan an Intergovernmental Coordination Element goal which is outlined below.

#### Intergovernmental Coordination Element Goal:

Objective 1. To initiate and/or participate in processes and procedures necessary to ensure coordination, effectiveness and efficiency in decisions regarding development activities and service

provision in the City of Sunrise.

**Objective 2. Coordination of Level of Service (LOS) Standards:** The City of Sunrise, in cooperation with the appropriate federal, state, county and other local governmental agencies, shall encourage the appropriate coordinated level of service (LOS) facilities and services.

**Objective 3. Development Impacts on Other Public Agencies:** The City of Sunrise shall continue to provide for coordination in the development approval process and in the review of development proposals which may impact other public agencies.

**Objective 4. Collaborative Planning:** The City of Sunrise shall support and coordinate with the establishment and implementation of joint processes for collaborative planning and decision making on population projections, public school siting, the location of public facilities subject to concurrency and the siting of facilities with countywide significance.

Each objective has a set of specific policies written to help ensure the objectives are met. The Comprehensive plan can be viewed in full at the City's website: <https://www.sunrisefl.gov/departments-services/community-development/planning/City-s-comprehensive-plan>

## **Discussion**

The City also maintains coordination as discussed above:

- Membership in local and state organizations
- Participation by City staff on boards, committees and agencies
- Discussions at committees supported by the City

The Broward County HOME Consortium, administered by the Broward County Housing Finance & Community Development Division, distributes federal HOME funding to member municipalities throughout Broward County. The City of Sunrise receives HOME funding annually as a participating municipality in the Broward County HOME Consortium. These are the primary vehicles for coordination based on available staff resources.

### Discussion

There are no urgent need projects where existing conditions pose a serious and immediate threat to the health and welfare of the community.
